The weather during the past week has

been bright and clear. The sun is growing

more powerful each day. There has been

no thaw worthy of the name. There are no

prospects yet of a very early spring.

A Kingston newspaper states that the

Rathbun Company are endeavoring to

secure the Tete du Pont barracks site in

that city for a railway station. If they want

it very much they will, no doubt, get it.

Mr. and Mrs. E. W. Rathbun went to

Oswego last Saturday and returned home

on Tuesday. On their return they brought

with them Miss Rathbun, who we regret to

say, has been quite ill from a severe attack

of pleurisy. A private car was engaged at

Oswego and the party came through without

change by way of the Suspension Bridge.

On Thursday night last week, at a

place called Craigville, near from Colton

wood, a woman named Jennie Wench is

alleged to have murdered her own mother

and daughter and then attempted to burn

their bodies so as to destroy all traces of her

crime. She has been arrested by the police

and a coroner's inquest is still in progress.

It is alleged that Mrs. William Ryan, a

young married woman, whose husband con-

ducts the Hub hotel in Napanee, has eloped

with Arthur Christie, a Grand Trunk oper-

ator at Sidney crossing. Mrs. Ryan, whose

maiden name was Lizette Thompson, was

visiting her parents at Belleville, and drove

out to Sidney. When last heard from the

couple they were at Niagara Falls.

On Friday, Feb. 21st, a very pleasing

event took place at the close of a largely

attended service at the Emmens' apart-

ment, near Shannonville, where Mrs. C. C.

## EAST HASTINGS REFORMERS.

A meeting of the Reform Association of East Hastings was held at Caniton on Thursday, Feb. 23rd. Mr. J. M. Hurley, president of the association, presided. The meeting was held in the hall of the Reform Association, which was a very large assembly of farmers and other residents of the riding. The following officers were elected for the ensuing year: J. M. Hurley, president; Wm. McLaren, Melrose, and Wm. Stoddart, Deseronto, vice-presidents; Mr. McLaren, treasurer. The selection of a candidate was proceeded with by ballot, W. R. Aylsworth and Mr. L. H. Brown were nominated. Upon the ballot being taken it was found to be unanimously in favor of Mr. N. Verniyea, Esq., Rev. Deane of Thurlow, and the announcement was received with hearty and prolonged applause.

The business of the association concluded, a public meeting was held, Mr. Hurley, president of the association, filling the chair. The Chairman thanked the association for again honoring him with the position of president and promised to do his duty to the best of his ability.

The following resolution moved by Mr. Wm. Stoddart, seconded by L. H. Brown, both of Deseronto, was carried by a sweeping vote:

"That the Reform Association of East Hastings hereby expresses its admiration and grateful appreciation of Sir Oliver Mowat and his ministers for the honest and beneficial government given by him to Ontario these many years by him, and this association pledges itself to use every legitimate means to return them to power from the riding at the next election."

Mr. Hurley said there was no uncertainty about their confidence in Ontario's chief and his able management of Provincial affairs.

The following resolution was then moved by J. M. Hurley, seconded by J. Jones Phillips, Thurlow:

"That the Reform Association of East Hastings hereby expresses its unbounded confidence in the Hon. Sir Oliver Mowat and his ministers, and its followers in the Dominion parliament and its unremitting opposition to the present fiscal policy of the government, in which Sir Oliver Mowat proposes to perpetuate slighted, trimmed until the next session of parliament greatly to the injury of the farmer, the Dominion, and the people."

Mr. Verniyea, who was received with prolonged applause, proceeded to address the meeting. He said that he was indeed very grateful to be present at the unanimous expression of their confidence and esteem. He accepted the honor and the responsibility of the position, and he promised them that he would not neglect an opportunity of doing it, if he became their representative.

He said that he was a native of the township acknowledged that fact and approved of his management. His experience in municipal matters would aid him in the discharge of his duties. He promised them that he would not neglect an opportunity of doing it, if he became their representative.

## A Cataloguing Machine.

There is now in operation at the Free Public Library a new cataloguing device, the invention of Alexander J. Knapp. It is intended to supersede the present system of cataloguing by cards. Although the machines may be made of any size, those at the library are about four feet long and three feet wide. They resemble polished oak-wood boxes, and being on casters may be located in any part of a room, as convenience may require.

The top of lid is made on glass, and beneath this are four leaves or slips, which are presented to view. These leaves are a part of an endless chain of 800 slips. They are arranged alphabetically, and by means of a crank are run over two wooden cylinders, appearing in order as they are required for reference.

When these leaves pass from view they drop into the case below and are caught on a metal rule, formed like the arc of a circle by small rods, which extend from each tooth. This is the principle of the machine, which leaves each slip in its place, and ready to be sent on their way again over the cylinder again when required.

Each of the leaves as seen under the glass has edges of grooved metal into which slips of paper are inserted. The required depth may be slipped under the appropriate index letter. For example, the slip for "A" is placed under the letter "A," and so on. Adams, and his works, are placed in position on a leaf. Should this author issue another work the slips are pushed apart so as to make room for another slip bearing the title of his latest production; and when it has assumed its proper place in the alphabetical order the slips are pushed up again into close position. As each of these leaves will contain many words as a royal octavo page of print, the information presented to a librarian by 800 of them is very considerable.

Accompanying the catalogue machine is an ingenious paper-cutting device, which permits of the slips required for insertion in the leaves being cut to a very narrow and uniform width, as desired. —San Francisco Chronicle.

## Smallest Country in the World.

The smallest country in the world is said to be the territory of Moromet, which is a small principality in Germany. It is 2,000 inhabitants are mostly occupied in tin mining, although agriculture is also engaged in. Military service and military discipline are unknown. The senate of ten members is appointed by the mayor, who is chosen by two delegates, one from Belgium and one from Moromet. The prince of Moromet is a man, whose salary is provided by the annual revenue (about 1,300 francs), which also maintains the roads and the army. The territory is entirely dependent in 1815, to settle the dispute when the boundary was fixed between Germany and Belgium, with consulting its title in the treaty. It contains only two and one-half square miles.

Nevertheless her indisposition passed away, and she lived on for many years. The conviction forced itself upon her that she was on her deathbed. So she summoned all her relatives, and after delivering up her property, she died. On the brevity of life and the vanity of human efforts after happiness, she proceeded to divide her personal belongings among her children.

To my niece Eliza I give my hand painted teacups and eleven silver teaspoons. One of the rooms was lost, and she had to leave. I have always been an unusually healthy woman. To her physician she said indignantly: 'Here I have lived for more than thirty years with hardly a day that I can remember, and to be taken down in this way seems to me too bad.' Nevertheless her indisposition passed away, and she lived on for many years. The conviction forced itself upon her that she was on her deathbed. So she summoned all her relatives, and after delivering up her property, she died. On the brevity of life and the vanity of human efforts after happiness, she proceeded to divide her personal belongings among her children.

## AUNT TAB'S LEGACIES.

Aunt Tabitha Robbins had always said that she didn't approve of the conventional method of giving legacies. She was determined to try to do it in a more intimate and personal way. "I can assure you that I will never give my property to a stranger," she said. "I will give it to those who I know and love. In nine cases out of ten when anybody dies there is more or less of a struggle among the surviving relatives as to who shall have what. Legacies may be left behind to be divided up. And inasmuch as the claimant with the least claim of feeling makes the first grab, the consequence usually is that whatever is best falls into the hands of the individual whom the deceased would least have cared to benefit. My observation has been that in such a case there is always a grabber at hand to grab the things, and the others are obliged to be content with whatever may be left. In my own family there is a woman who has always made a business of grabbing in this fashion whenever a relation gave up the ghost. On such occasions she has made it a rule to be present, and she has always been with the last ceremonies and incidentally gathering in whatever was most valuable. As a result of this, the individual who has the jewelry and old silverware that has come down through the inheritance of generations of the family, is always left with nothing. I should be very glad to see a way so suddenly as to render preparation impossible.

Precisely what method she intended to adopt for accomplishing this nobody was told, but the nature of it was recently revealed. About a month ago Miss Robbins fell ill. She did not take kindly to the idea of dying, and she was always been an unusually healthy woman. To her physician she said indignantly: 'Here I have lived for more than thirty years with hardly a day that I can remember, and to be taken down in this way seems to me too bad.' Nevertheless her indisposition passed away, and she lived on for many years. The conviction forced itself upon her that she was on her deathbed. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

#### Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osmond,  
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup, and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitchener,  
Conway, Ar.

#### Castoria.

"Castoria is so well adapted to children that I recommend it as a purgative to any prescription known to me."

Dr. A. H. Archer, M. D.,  
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular product, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

#### OUR FLOATING ENGINEERS.

'Twas a bleak November night. The skies overcast; the wind blew whirling, tearing past the mast. "All hands aboard!" the captain cried. "Cast off the lines," the mate in turn replied. The signal "aloof" was given below. A trembling of the craft was felt. In all her majesty and grace she moved. The steaming ship with ponderous engines was moving out. Of port, where she had calmly rested like a babe asleep. Upon its mother's breast. The good-eyes echoed back. From shore, upon this trip worth while were to be met. Soon past the outer harbor light she moved, along quickly. Heading on her course, "full speed" was signalled from the captain's bridge. The elements seemed mad that night. The sea was wild. And Neptune's strength of power intensified with fount the tolling breakers whirled; like demons did they lash and break against the bow, as if in mockery, to kiss their sought-for prize. From out the stacks rolled thick blackness as fast and thick. As if to make the darkness still more dark, and down. Upon the angry sea, three bands of darkness met each white cap. As it broke with glass. The winds seemed angered by the view, and ragged the decks as the good ship met each rolling sea.

Each man to duty now! With decks ablaze with light. Red, green and white, the racer sped upon her course. The throbs of engine met each lurch, and in a choppy sea the vessel labored heavily. Her rudders Cues of hammered steel were golden now. Anchor, seldom used, was double chained in place. As if to press that badge of hope more firmly to her heart. But on she sped, and rode each wave majestically. Resolute and double duty, hand in hand, were her.

And when at length glad dawn the morning light, Victorious over darkness and uncertainty—no sail in sight. No other craft had left her port that fearful night, while others who could sought shelter from the white sea.

Down through a narrow stairway, deep below the deck, The engineer and his assistants bravely stood. Though weary with his fatigue, the throttle and the lever grasped, Each cheek, though pale, was firm and calm, but with it. Heed not to her heart. But on she sped, and rode each wave majestically. Resolute and double duty, hand in hand, were her.

#### MOUSE AND RATTLER FIGHT.

An extraordinary combat in Cincinnati, Ohio, on Saturday night, was witnessed by a large number of people. The combatants were a mouse and a rattler. The mouse was a small, white mouse, and the rattler was a large, black rattler. The combat took place in a small, dark room. The mouse was the aggressor, and the rattler was the defender. The mouse attacked the rattler, and the rattler fought back. The combat was a fierce one, and it lasted for a long time. Finally, the mouse was victorious, and the rattler was killed.

## THE FACT

That AYER'S Sarsaparilla cures all kinds of skin diseases, eruptions, boils, eczema, liver and kidney diseases, dyspepsia, rheumatism, and catarrh should convince that the same course of treatment will cure you. All that has been said of the wonderful cures effected by the use of

## AYER'S Sarsaparilla

during the past fifty years, truthfully applies to-day. It is, in every sense, The Superior Medicine. Its curative properties, strength, effect, and flavor are always the same, and for whatever blood diseases AYER'S Sarsaparilla is taken, they yield to this treatment. When you ask for

## AYER'S Sarsaparilla

don't be induced to purchase any of the worthless substitutes, which are mostly mixtures of the cheap ingredients, contain no sarsaparilla, have no uniform standard of appearance, flavor, or effect, are blood-purifiers in name only, and are offered to you because there is more profit in selling them. Take

The Ontario legislature will meet for business April 5th.

Read Mr. Hoppin's change of advertisement this week.

Mr. W. H. Hoppin, a well known farmer and cattle raiser, died Wednesday at his home in Napanee.

Citizens are taking advantage of the present soft spell to clear slush and ice from the boardwalks.

Mr. Wm. F. Bowen, Napanee road, was killed by a horse last Friday and sustained some very severe bruises.

Miss Cherry, of Bowmanville, has taken charge of Mrs. Dalton's millinery department for the coming season.

Marking and shipping ropes, together with "keep off the grass" notices, have put in an appearance. These are all sure harbingers of spring.

At the Belleville Assizes Gordon Sharp was sentenced to nine months in the central prison for larceny of \$90 from his mother in law, Mrs. Horrick, of Glen Miller.

The (Hudsonians met with a severe defeat in the bye-election at Great Grimsby this week, the Liberal-Unionist candidate being returned by a very large majority.

Mr. Robert Craig, formerly a farmer at Glenora, died at Toronto last Friday, aged eighty years. Deceased was an uncle of Rev. R. J. Craig, M. A., of Deseronto.

It is said that a petition is being numbered in Ottawa asking the Ontario government to extend the time for killing deer from October 1th to November 1st.

The Prince of Wales is said to be a model theatre goer. He is always on time and never keeps the curtain raisers a moment beyond the time advertised for the play to commence.

The Streets Committee of the town council have decided to stop the objectionable practice of throwing ashes and garbage on the street. Parties guilty of this offense run the risk of prosecution.

Rev. T. B. Scott and his wife, who are going to Ceylon as medical missionaries, were given a farewell by the associations of Queen's college, at Kingston, on Tuesday evening. Mr. Scott was formerly of Belleville.

The Bible on which President Cleveland took the oath of office at his inauguration last Saturday was given him by his mother 41 years before. By his special request it was eight years ago put to the same service for which it was used on Saturday.

The weather has been very mild during the past few days and under the influence of sun and high temperatures the snow has been disappearing at a rapid rate. Many of the streets are nearly bare. It may be said that spring has made a decided advance.

Deputy Sheriff Hoff was in town on Tuesday last serving subpoenas for the Crown in the Brant rape case. We hear that this case will probably be traversed at the next assizes when the prisoner will probably be released on his own recognizances.

"Do you take the Texas Agricultural?" "I need not, but I don't any more. The editor lined and I called on him and asked his opinion of the best way of raising hogs, and he told me to pull myself up by a derrier."—*Western Mail.*

The Misses Huff, Mr. C. Walker and others assisted at a successful tea meeting held by the Methodist congregation at the Parkers' appointment, Hay Bay, last Tuesday evening. A large number of ladies were present and a most successful meeting was held. The affair netted \$56 for the good cause.

Mrs. Cissold, wife of Mr. M. R. Cissold, of the Buffalo Enquirer, died suddenly at her mother's residence at Toronto, last Sunday evening. Deceased was a maiden lady and was Ella Spurgeon, spent a summer in Deseronto visiting at Mr. E. H. Cook's. Friends in Deseronto will regret to hear of her early death.

Dr. Thornton, of Coneseo, D. G. M., for the Prince Edward district, paid an official visit to Craig Lodge, A. F. & A. M., last Tuesday evening. There was a large attendance of the brethren and the proceedings were of an interesting character. The brethren agreed to occupy their new lodge room about the first of May.

The expense of taking the census of 1891 in Lennox was \$1,005.89. Wm. Templeton, the commissioner, received \$231.60. In Richmond H. Vanhook, enumerator, received \$79.11 and G. S. Semanish \$101.29. Fredericksburg—Chas. Diller \$48.24. E. H. Nils \$18.50. Wm. H. Lively \$10.40. P. J. Gault \$8.31. Adolphus—P. D. Davis \$49.21. Amherst Island—C. A. Fowler \$37.20. Bath—F. W. Howard \$33.

Mr. Michael Doran, who died in Kingston on the 2nd inst., has bequeathed \$25,000 to Queen's University, the General Hospital, and the Orphan Asylum, of Kingston, in three equal parts. These are among the largest bequests ever recorded in Ontario. He also left \$25,000 to friends and relatives, \$10,000 of which goes to Mueckler, \$2,000 to W. Mueckler, Jr., and \$1,000 to Chalmers Presbyterian church, of which he was a member.

A large sleigh load, piloted by Mr. John Hill of Apothecaries Hall, drove up to Shannockville last Tuesday evening to participate in the pleasures of a parlor social held at the hospitable residence of Mr. D. McLennox, of that village. They were very hospitably entertained and have made everyone envious since their return by telling of the good time they had on the occasion. The sum of \$21 was realized for the Presbyterian congregation at Shannockville.

Mrs. A. G. Knight represented the Ladies Missionary Society of the Church of the Redeemer at the meeting of the Presbyterian Society held in Kingston this week. At this meeting Mrs. Wilson, of Neenach, Central India, gave an address describing life in India, the difficulties of missionary work and the prejudices which have to be overcome. The Treasurer reported \$1,170 raised last year. Nine half of dollars were sent to Indian missions in the North west. Mrs. Knight gave an interesting report to the local society at its meeting in the church parlor on Wednesday afternoon.

The annual report of the commission of Mounted Police was laid on the table of the House of Commons last week. The Indians, it says, have been quiet, but a good deal of liquor in the south and west. Under the new license system an Indian can get more liquor than under the present system. Some of the half-breeds sell their cattle to obtain liquor. During the year \$2,300 worth of liquor was sold to Indians. The purchase of \$2,600 worth sold. Discipline, with the exception of an increase of drunkenness, has been good. Speaking of settlement, the commissioner says the Métis are increasing in numbers.

About ninety men were laid off at the Perth car shops a few days ago.

W. Calder, a shameless wife-beater, was fined eight dollars and costs by an Odessa magistrate.

Flourishers at South Bay are preparing for a busy season. Large hauls of suckers have already been made in that region.

The Pictou spring assizes opened before Justice McMahon on Monday. There were no criminal cases. There were seven civil cases.

A pitch-in occurred on the Central Ontario railway on Wednesday near Gilmour station. One car carrying an engine was badly damaged, but no one was hurt.

Sir John Thompson left for France yesterday to participate in the deliberations of the Dehring Sea commission. Hon. Mr. Bowell will be acting premier in his absence.

A large delegation from Court Quatre, No. 1, Canadian Foresters, went to Napanee last night to assist in the initiation of ten new members into the local court at that place.

A loom for the Pictou wire fence factory is being manufactured at J. C. Wilson's machine shop, Glenora. It will cost \$4,000 and will have a weaving capacity of one mile per day.

The Josie Mills company appeared in the Deseronto opera house Wednesday and Thursday evening. The company fulfilled all expectations of those who saw them. They left for Belleville this morning.

The attention of our readers is directed to the advertisement of the Shaw Company, of Toronto. They announce a great slaughter sale of thirty thousand dollars' worth of dry goods and carpets at rates lower than the lowest. Visitors to Napanee will find them at Hooper & Dorrance's old stand. The stock must be sold. A good chance for bargains.

**Waste of Money.**  
The maintenance of a Governor-General has cost the country over three million dollars since confederation was established. On salaries, \$1,210,666 has been spent; on Rideau hall, \$1,001,571; on travelling expenses, \$145,803; salaries of officials, \$270,350; and on salaries of secretary's office, \$217,426.

**Varior Societ.**  
The choir of the West End will give a social in the Mission Rooms next Tuesday evening, March 14th, at 7:30 o'clock. The whole house will be thrown open for promoting and the different rooms furnished with refreshments, etc. It promises to be one of the most successful events of the kind ever held in Deseronto. Admission, only 10 cents.

**Lodge Fees Not Collectable.**  
The C. M. B. A. of Kingston sued Mr. T. J. Donohue for \$16 dues and assessment. He paid by it for him. Mr. Donohue claimed he only owed \$2.50, having withdrawn from the lodge after he had paid the dues. The lodge said he was not constitutionally before them, but the Judge held that the fees were not collectable and dismissed the action. The case is interesting to societies carrying members.

**Presentation.**  
About forty members of Deseronto Council of Royal Templars invaded the residence of James Booth one evening recently. Mr. Booth was completely surprised when they presented him with a treasurer's silver jewel accompanied with many kind words bearing testimony to his worth and character. He has done for the benefit of the order. A very pleasant evening was subsequently spent by the large party.

**Church of the Redeemer.**  
Large congregations were present at the Church of the Redeemer last Sunday. At the evening services the Royal Templar Crusaders assisted the choir, giving an excellent musical selection. W. P. S. C. Endeavour held their monthly convocation service after the evening service. Services next Sunday at usual hours. The pastor will be assisted by Mr. J. S. Scott, G. D. Treas., Valentin, J. G. McCarty, J. G. Treas., Bethany.

**Two Meetings at Greenpoint.**  
The Mount Carmel met meeting on Thursday evening of last week was a grand success. The little church was crowded, the programme was good and the refreshments proved that the Greenpoint ladies are well up in the Epicurean art. Rev. Mr. Down, of Northport, presided over a very good natured audience. A sleighload of Deseronto young men drove over and they all reported having a very enjoyable time. The net proceeds were over fifty dollars.

**Checker Tournament.**  
The games room of the Deseronto Mechanics Institute is crowded every Thursday evening with admirers of the game of checkers who watch or take part in the tournament held weekly. All lovers of the game are heartily invited to be present on these occasions. Last Thursday evening sides were chosen by Messrs. R. Hayburn, D. M. Ottawa, W. H. Craig, D. G. M., and D. Goodmurry and an exciting match followed. General Goodmurry's team being victorious with seventeen games won, Hayburn's team having thirteen to their credit and their being six draw games. The following is the score of each couple: R. Hayburn 2, D. Ottawa 4, draw 1; C. Stewart 1, H. Woodall 4, draw 1; G. Gaultin 3, C. Jacques 1, draw 1; Robert H. Baker 2, J. Kitchin 3, draw 1; E. Cronk 3, F. Calhoun 3, draw 0; Wm. Mitchell 3, Dr. Vandervoort 2, draw 1. Proceedings commenced at 7:30 p. m.

**Methodist Church.**  
The Parlor social held last Friday evening at the residence of A. A. Richardson, Esq., was one of the most enjoyable and successful ever held in Deseronto. The Methodist church. The spacious house was full of guests, up stairs and down, and the happy company kept together until late, separating at last in the spirit of old adage "happy to meet, sorry to part and happy to meet again."

There will be another meeting next Friday evening at 8 p. m. J. E. Greathart, M. A., of the Methodist church, will be the speaker. This social will also be for the benefit of the Methodist church funds. Don't forget the intellectual treat in store for the people of this town on March 20th, as the net fall to attract a large number of the most intellectual of our townpeople. Remember, Wednesday, March 20th. Services as usual next Sunday afternoon. Visitors at both congregational services and Sunday school always welcome.

**Dramatic Club.**

We understand that the performance by the Deseronto Dramatic Club, delayed by reason of Mr. Bedford's illness, will come off shortly after Easter, when speaking from past experience, we can prophesy an enjoyable entertainment.

**New Teeth at Ninety.**

Mrs. John Smith, near Renfrew, is ninety years of age, and is cutting a new set of teeth. They are already five in number and sound and beautifully white. She had never lost her own teeth, though they are now brown with age, but are dropping out to give place to the new.

**Fire On Monday.**

A few minutes after the noon whistle on Monday an alarm of fire was given. It was found that a house on Edmund street owned by Mr. Godfrey Colp and occupied by Mr. George Caboon was ablaze. A bucket brigade was soon at work and in seven minutes from the alarm a stream of water from the hydrant near Lapp's corner was playing on the house. All Mr. Caboon's furniture was taken on from the street and removed to the roof of the house which will not exceed fifty dollars. It is supposed the fire was caused by children playing with matches.

# P. SLAVEN & CO.

We have sold a lot of PRINTS already. Our Prints are so pretty that when ladies see them in the window they cannot resist the temptation to come in and buy a dress.

We have opened another lot of Prints this week, including some pretty White Ground Prints and Fonland Prints, new Challies and Printed Delaines. Those with a polka dot on a cream ground are very pretty. So are the Pacific Bedford Cords.

Some lovely DRESS PATTERNS are in this week. Only one dress in each piece. Among these were a few handsome Tartans, but they were sold before we had a chance to show them in the window.

We have opened a fine assortment of Black Passanterie Trimmings, Jet Trimmings, Black Silk Buttons and Jet Rim.

Another cartoon of those Fine Embroideries opened this week.

We offer hearty New Year's Greetings to our numerous customers, and sincerely thank them for the liberal patronage bestowed upon us during 1892.

Our stock taking is now over, and we shall at once begin a clearing sale. All Fall and Winter Goods must be sold regardless of value, as our store is too small to carry unseasonable stock.

Any person who is watching the tendency of business affairs in Deseronto can clearly see that it is not only in an active condition, but about to enter a period of much more animation and prosperity. Cheerfulness and confidence pervade all classes of our people, and there is an evident determination on the part of all to press onward in every enterprise and gain the greatest success in every occupation. When such a state of feeling is general among the masses we may well look for an era of universal prosperity. These bright prospects have prompted us to make unusually large importations of Spring Goods, for which we must make room.

If we have not had the pleasure of doing business with you in the past we shall be glad to number you with our customers for 1893.

Our stock in the following lines will be fully assorted with the very best goods obtainable and sold at prices which cannot fail to satisfy purchasers:

## LYNCH LAW IN THE U.S.

AN EXTRAORDINARY PAPER BY THE REV. THOS. DIXON, JR.

A Defense of Southern Courts—It is Denied That the Negro Suffers Merely Because He is Black—A Severe Arrangement of New York.

Now that the election is over and the question of lynching in the South is removed from the realm of practical politics, we may be able to turn our attention to it for a serious study. It is asserted that negroes are lynched in the South because they are black. This is asserted that, as a fact, the South is yet in a state of partial barbarism; that it condones murder and approves of lynching, which gratifies passion and leaves the expense of courts and prisons.

Is this a fact? Certainly it is that lynching is too common in the South, and for that matter throughout the whole nation. I would distinctly say that I believe that lynching is in every sense a disgrace to a civilized nation. The uncertainty that attends such execution is a horror irrepressible.

The possibility of murdering an innocent man through the passion of a mob sends a chill to the heart of humanity. The majority of these lynchings, by a legal execution of an innocent man is likewise an unspeakable horror. And there is just about as much uncertainty attending legal executions as upon the average executions by lynch law in the South. If we take such a case as that of Carlyle W. Harris, who was sentenced to death, having been duly convicted by a jury, we have a fair illustration of the fact that with all the possible light thrown upon such cases, by long delay and the most careful judicial investigation, there is still an element of great uncertainty. Whether this young man is guilty or not the world does not know; and how a jury could agree upon the evidence in the case I for one do not see.

For this reason among others I might say in the beginning that I do not believe in capital punishment. I do not believe that it is the true remedy for homicide.

We have in America on an average 200 lynchings every year and about 100 legal executions. The majority of these lynchings are in the South—perhaps 60 per cent. of them. This is an unmitigated disgrace. It is a disgrace to the South, which disgraces the nation. It is a disgrace to humanity.

Yet there is a greater disgrace than this, and it is that last year there were in America more than 7,000 murders, and yet out of 7,000 murderers only 300 of them paid the penalty in the forfeiture of life—300, in round numbers, by lynching. Supposing even that number were the only crime for which men were lynched, what shall we say of the un-avenged death of the 6,700 who were murdered and for whose murder there has been no settlement and never will be? This record simply indicates the fact that capital punishment is a total failure, that in no sense of the word does it serve the end for which its executioners aim. It indicates a radical defect in our system of justice.

But the question to which we address ourselves is one that affects the negro of the races. Is it true that the negro is lynched because he is a negro? I do not believe that there is an element of truth in the statement. Negroes are not lynched because of their color; they are lynched for crime. Bishop Fitzgerald has well said in reply to this assertion, that "the white man in the South who is guilty of the same crime meets an awful doom as swiftly as does the black man. It is notable that there are no records of truth in the statement. Negroes are not lynched because of their color; they are lynched for crime. #### CHAPTER II.

EVERYTHING as Col. Courtland rode deliberately toward "Dove's Folly"—as the new experiment was locally called—although he had not abated his romantic enthusiasm in the least, he was not sorry that he was able to visit under a practical pretext. It was rather late now to seek out Miss Sally Dow with the avowed intention of bringing her a letter from an admirer who had been dead three years, and whose misery she had probably buried. Neither was it tactful to recall a sentiment which might have been a weakness of which she was ashamed. Yet, clear-headed and logical as Courtland was in his ordinary affairs, he was nevertheless not entirely free from that peculiar superstition which surrounds every man's romance. He believed there was something more than a mere coincidence in his unexpectedly finding himself in such favorable conditions for making her acquaintance. For the rest—if there was any rest—he would simply trust to fate. And so, believing himself a cool, sagacious reasoner, but being actually, as far as Miss Dow was concerned, as blind, fawning and reasoning as any of her previous admirers, he rode complacently forward until he reached the lane that led to the Dows plantation.

Here a better kept roadway and fence, whose careful repairs would have delighted Drummond, seemed to augur well for the new enterprise. Presently even the old-fashioned local form of the fence—a slanting zig-zag—gave way to the more direct line of post and rail, in the northern fashion. Beyond it, presently appeared a long, low frontage of modern buildings which to Courtland's

HE STOOD AT THE OPEN WINDOW.

surprise were entirely new in structure and design. There was no reminiscence of the usual southern porticoed veranda or columns and veranda. Yet it was not northern either. The factory-like lines of facade were partly hidden in Cherokee rose and jessamine. A long, roofed gallery connected the buildings and became a veranda to one. A broad, well-rolled gravel drive led from the open gate to the newest building, which seemed to be an edifice of smaller parts diverged from it to the corner house, which, despite its severe simplicity, had a more residential appearance. Unlike Reed's house there were no lounging servants or field hands to be seen; they were evidently attending to their respective duties. Dismounting, Courtland tied his horse to a post at the office door and took the smaller path to the corner house.

The door was open to the fragrant afternoon breeze wafted through the rose and jessamine. There was a side-door opening from the hall into a long parlor or sitting-room that ran the whole width of the house. Courtland entered, finding that the air of freshness and of being uncharacteristically new. It was empty, but a faint humming was audible on the rear wall of the house, through the two open French windows at the back, curtains with trailing vines which gazed upon a sunlit courtyard. Courtland walked to the window.

Just before it, on the ground, stood a small light ladder with a green put aside to gain a better view of the courtyard, as he stood at the open window. In this attitude he suddenly felt his hat tipped from his head, followed almost instantaneously by a falling slipper, and the distinct impression of a very small foot on the crown of his head. An indescribable sensation passed over him. He hurriedly stepped back in the room, just as a small striped stocking foot was hastily drawn up above the top of the window with the feminine exclamation: "Good gracious me!"

Lingering for an instant, only to assure himself that the fair speaker had secured her foothold and was in no danger of falling, Courtland snatched up

the hat, which had providentially fallen inside the room, and retreated indignantly to the other end of the parlor. The voice came again from the window. It struck him as being singularly sweet and clear.

"Sophy, is that you?" Courtland discreetly retired to his

hall. To his great relief a voice from the outside answered: "Whar, Miss Sally?"

"What did you move the ladder for?"

"Yo' god, Miss Sally, I didn't move no ladder!"

"Don't tell me, but go down and get my slipper. And bring up some more milk."

Courtland waited silently in the hall. In a few moments he heard a heavy footstep outside the rear window. This was his opportunity. Reentering the parlor somewhat ostentatiously, he confronted a tall negro girl who was passing through the room carrying a tiny slipper in her hand. "Excuse me," he said, politely, "but I could not find any to announce me. Is Miss Dow at home?"

The girl instantly whisked the slipper behind her. "Is yo' wantin' Miss Mirandy Dows?" she asked, with great dignity.

"Yes, Miss Sally Dow," he replied. "Miss Mirandy's bin gone to Atlanta for a week."

"I have a letter for Miss Mirandy, but I shall be very glad if Miss Sally Dows will receive it for me," he said, handing the letter and his card to the girl.

She received it with still greater accents of dignity and marked deliberation. "It's clean gone out of my mind, sah, of Miss Sally is in de resumption of visitah, at dis house. In fact, sah," she continued with intensified gravity and an exaggeration of thoughtfulness as the sound of Miss Sally's hammer came shamelessly from the wall, "I doan know exaxely ef she's engaged playin' de harp, practisin' de languages or paintin' in oil and wash colors, or givin' audiences to officials from de court-house. It might be de househ for de ong or de odder. But I'll communicate wid her, sah, in de budwah on de upphah floor." She backed dexterously, so as to keep the slipper behind her, but with no diminution of dignity, out of a side door. In another moment the hammering ceased, followed by the sound of rapid walking without; a few tiny twigs and leaves slowly rustled to the ground, and then there was complete silence.

He ventured to walk to the faithful window again.

Presently he heard a faint rustle at the other end of the room and he turned.

A sudden tremulousness swept along his pulses, and then they seemed to pause. He drew a deep breath that was almost a sigh, and remained motionless.

He had no preconceived fancy of falling in love with Miss Sally at first sight, but he had dreamed such a thing possible. Even the girlish face that he had seen in the locket, although it had stirred him with a singular emotion, had not suggested that, and the idea had not evolved from it was never a potent presence. But the exquisitely pretty face and figure before him, although it might have been painted from his own fancy of her, was still something new and something unexpected. All that had gone before had never prepared him for the beautiful girl that now stood there. It was a poor explanation to say that Miss Sally was four or five years older than her picture, and that, later experience, enlarged capacity, a different life and new ambition had impressed her youthful face with a refined nobility; it was a weird fancy to imagine that the blood of those who had died for her had been some vague, mysterious way imparted an actual fascination to her, yet it was a fact that even a familiar spectator like Sophy, seen in her young mistress's attire, had been struck by the soft pink complexion, the silken hair—that looked as the floss of the Indian corn might look if curled, or golden spider threads, if materialized—and eyes that

blouse—evidently a habilliment of Sophy's—behind her back as she returned. It was gathered under her arm, and she also hid behind her while her fair hair was tucked under the usual red bandana handkerchief of the negro housemaid. It is scarcely necessary to add that the effect was bewitching.

"But," said Miss Sally, cying her guest's smartly-fitting frock coat, "yo'll spoil yo' pretty clothes, sure! Take off yo' coat—don't mind me and work in yo' shirt sleeves."

Courtland obediently laid aside his coat and followed his adroit hostess through the French window to the platform outside. Above them a wooden ledge or cornice, projecting several inches, ran the whole length of the building. It was on this that Miss Sally had evidently found a foothold while she was nailing up a trellis work of laths between it and the windows of the second floor. Courtland found the ladder, mounted to the ledge, followed by the young girl, who smilingly waved his proffered hand to help her up, and the two gravely set to work. But in the intervals of hammering and tying up the vines, Miss Sally's tongue was never at rest. She talked with the softest, as original as herself, and yet so practical and to the purpose of Courtland's visit, as to excite his delight in it and her own fascination prophylactically.

She stopped to take a snuff from between her pretty lips when she spoke to him, or whether holding on perilously with one hand to the trellis while she gestivated with the hammer, pointing out the divisions of the platform from her coign of vantage, she was as clear and convincing to his intellect as his was distracting to his senses.

She told him how the war had broken up their old home in Pineville, sending her father to serve in the confederate councils of Richmond, leaving her aunt and herself to manage the property alone; how the estate had been downsized; how she had been obliged to sell her land but had barely time to remove a few valuables; how although she had always been opposed to secession, and the war, she had not gone over to the victors, but stayed with her people and took with her the punishment of the folly she had foreseen. Now after the war and her father's death she and her aunt had decided to clear themselves of the property after their own fashion on this bit of property which had survived their fortunes because it had always been considered valueless and unprotected by the war. They had at first they had undergone serious difficulty through the incompetence and ignorance of the freed laborer and the equal sympathy and help of the white neighbors. How they had gradually succeeded with the adoption of new methods and ideas that she herself had conceived, which she now proudly and clearly explained. Courtland listened with a new, breathless and almost superstitious interest; they were his own theories—perfected and demonstrated.

"I'm not Miss Mirandy Dows," said the vision, with a frankness that was half childlike and half practical, as she extended a little hand, "but I can talk facts with yo' as long as yo' get personal. Don't mind what kind of pink yo' knock me up with."

The voice that carried this speech was so fresh, so clear and sweet that

he was in bright gray harmony with both; that the frock of Indian mulla, albeit homelike, fitted Miss Sally's figure perfectly; that the azure bows on her shoulders to the ribbon around her waist—and that the hem of its billowy skirt showed a foot which everybody knew was the smallest foot south of Mason and Dixon's line. But it was something more intangible that this which kept Courtland breathless and silent.

an afraid Courtland thought little of the odds or of the distasteful surroundings. But it brought him his own tongue quite unemotionally and quietly. "I don't know what was in that," said Miss Dows, but I can hardly believe that Maj. Reed ever put my present good fortune quite in that way."

Miss Sally laughed. Then with a charming exaggeration she waved her little hand toward the sofa. "There! Yo' naturally wanted a little room for that, co'nnie, but now that yo' got it off—and might as well say yo' got it down at down." And with that she sank down at one end of the sofa, prettily arranged a white billow of skirt so as to leave ample room for Courtland, and, locking her fingers over her knees, looked demurely expectant.

"But let me hope that I am not disturbing you unseasonably," said Courtland, catching sight of the faint smile slipping beneath her skirt and remembering the window. "I was so preoccupied in thinking of your aunt as the business manager of these estates that I quite forgot that she might have a lady's hour for receiving."

"We haven't got any company hours," said Miss Sally, "and we haven't just now any servants for company either. I'm sorry for we're short-handed in the fields and barns. When yo' came I was nailing up the laths for the vine outside because we couldn't spare carpenters from the factory. But," she added, with a faint suggestion of mischief in her voice, "yo' came to talk about the farm?"

"Yes," said Courtland, rising, "but not to interrupt the work on it. Will you let me help you nail up the laths on the wall? I have some experience this way, and we can talk as we work. Do oblige me."

The young girl looked at him brightly.

the estate. There were some English runners who had been blockaded by the rebels, who had been driven out of the country with their families and property. But they were not to be represented there. It was better for their reputation with their neighbors that they had not been there. The fact, being a cloud of disrepute, was not to be passed over Courtland's head. The lady added with an affected sigh and the first touch of feminine coquetry which he invaded their wholesome camaraderie.

"Yo' ought to have found us out before, co'nnie."

For an impulsive moment Courtland told her the truth and then there the story of his romantic quest; but the reflection that they were standing on a narrow ledge with no room for the emotions told him that it was not the place, no matter who's here, or whose money is invested."

"I presume you are speaking now of young Miss Dows?" said Courtland, dryly.

"Miss Sally—of course—always," said Champney, simply. "She runs the shop."

"Were there not some French investors—relations of Miss Dows? Does anybody represent them?" asked Courtland, pointedly.

"Yes, but up to now quite prepared for the naive change in his companion's face."

"No. There was a sort of French cousin who used to be a good deal to the fore, don't you know—but I rather fancy he didn't come here to look after the property," returned Champney with a quick laugh. "I think the aunt must have written to his friends, for they called him off, and I don't think Miss Sally would have heart about it. She has that sort of girl—oh, she should have her pick of the state if she went in for that sort of thing, eh?"

Although he was exactly what Courtland was thinking of, he seemed to answer in a disinterested sort of fashion: "Certainly I should think so," and to relate into an apparently business abstraction.

"I think I won't go in," continued Champney as they ne

# What is CASTORIA

Castoria is Dr. Samuel Fitch's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Cud, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

**Castoria.**  
"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."  
Dr. G. C. Osceola,  
Lowell, Mass.

**Castoria.**  
"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."  
H. L. Archer, M. D.,  
111 Co. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their out-patient practice with Castoria, and although we only have among our medical supplies what is known as regular medicine, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."  
UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

## THE ONE YOUNG MAN WHO DANCED

There was a dearth of revelry in Dendard, the town.

This town comes from a boarder there he was suspected to be.

A thing of beautiful young girls swarmed over to one hotel.

There was Kate and Cora, Maud and Mary, Corinna, Blanche and Belle.

They were fascinating creatures too; all girls and all styles, and for fully seven miles.

Without an eligible man for fully seven miles.

There was an old crusty bachelor, two yokes and a lot of old fellows.

But none of them were dancers, and the girls went nearly mad.

One day a change came over the scene, and George Pendennis Brown came riding on a bicycle directly in from town.

He was single, he was ruddy, he was gallant, he was gay.

And he flitted with the ladies in a most delightful way.

Lawn tennis, boating, cricket, all he gladly went the rounds.

He stood, they tell me, six feet high, and weighed two hundred pounds.

They vowed him simply perfect, quite a creature without a fault.

Then, one unlucky evening, they discovered he could waltz!

So he had to waltz with Cora, and he had to waltz with Mary.

And he kept it up with Della in a most fatiguing way.

When utterly exhausted with exercise and heat.

He was seized upon by Isabel who whirled him off his feet.

And they kept it up till midnight, did those pitiless young maidens.

Till the landlord with a protest came and told them all the things.

Then they walked over the hall through the hall and waited him up the stairs.

Then waited him to his bedroom door and waited him to his room.

At breakfast all his limbs were sore, his back was full of pain.

But when a breakfast meal was over they started in again.

Far down the wide veranda, till the waits became a hop.

And he staggered with the exercise, but didn't dare to stop.

Begging, praying and protesting, they were always at his heels.

Till he couldn't read his paper and he couldn't eat his meals.

He danced upon the windows and beneath the lilac blossoms.

Then he danced with indignation when alone within his room.

They kept it up a week or more with wild and thoughtless glee.

Till Mr. George Pendennis Brown became a sight to see.

His ruddy cheeks had disappeared; his face was gaunt and pale.

His hobby coat and waistcoat hung upon him like a rail.

And when he did collapse at last he uttered awful screams.

And the doctors came and told them he was dancing in his dreams.

He came there on a bicycle, but he—so runs the tale—

He left there on an ambulance that went to Bloomingdale!

## ADVANTAGES OF BOX STALLS FOR COWS.

Even with scrupulous daily cleaning out of the manure, and bedding with straw, a majority of the cows kept in stalls, cannot live in the spring with drains, legs and brackets, covered with manure balls, looking dirty to the extreme.

What manure does not adhere to the cows is in too many cases thrown out under the eaves, to leech and keep, the remedy is a simple box-stall, doing away with all such waste, and the saving is bedding is considerable.

The writer kept two cows in a stable, ten by twelve feet, the manger running across the narrow way, taken of two feet, making the floor area ten feet square. A single upright standard of two by four inch scantling, retaining the front of the manger at the middle and giving the cows an equal chance at the ladder, is the only restraint of any kind upon the perfectly free movement of the cows.

This freedom of action is the secret of their cleanliness, there being, after a four months' standing, not a half pound of manure adhering to the cows.

The manure is mostly dropped behind the cows as they stand at the manger, forming a slight ridge about midway of the stable.

One cow lies along side the manger, and the other at the rear of the stable, parallel with the manger.

Both cows lie upon their right sides, nearly head to head, and in opposite directions.

The manure is leveled twice daily, and in the morning the remnants of cut cornstalks and other refuse found in the manger are scattered over it, and at night they have a bed of straw.

The manure is not taken out until spring, and packed hard and solid with a pack of straw.

Year I used the cow stable as a receptacle for the horse manure during the busy season of berry picking, when we had not room to draw it directly to the land, and the cows stood on this until about Thanksgiving day when we got it out and put in new straw.

Two weeks later we put in the cows for the winter, fastening the door so it could not be easily or carelessly opened.

The cows were kept nearly head to head, and came out in the spring fat, happy, plump and clean.

The manure was like pig manure, brown and solid, and worth at least double as much, pound for pound, as manure thrown out in a heap in the usual manner.

When the cows are strange or vicious, two could not be kept together, and in large dairies it might not be practicable for want of room, although two might be kept in a stall 5x12 feet, which would be but little more space than would be allotted them if kept tied in separate stalls.

In villages and suburban homes, however, this system is worthy of trial, as there is no pile of manure outside and no offensive smell, as the hard packing of the manure prevents fermentation.

An area of 12x7 feet, would be enough for one cow, it being essential that the stall be wide enough for the cow to lie acrossways or parallel with the manger, this being the secret of her keeping clean.

With two cows kept on a door 10x10 feet or less, with plenty of bedding, the manure will become two to three feet thick in four months, and it is necessary, after two months, to put an extra board on the front of the manger, and a false bottom, the bottom being simply a board out to fit and nailed to the edges of some 2x6 feet cut to raise it from the real bottom.

The false bottom and front can be laid away for another year when not in use.—L. B. PIERCE, Ohio.

## Cures Others

W. B. and Y. is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood, but, while this assertion is true, AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully said to be a preparation, which unprincipled dealers will recommend, and try to impose upon you, as "just as good as AYER'S." Take AYER'S Sarsaparilla, and you will get the blood-purifier and will be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equalled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

## AYER'S Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pain in the small of my back. In addition, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to use AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing, the case may be to take AYER'S Sarsaparilla."—H. L. JARVIS, 33 William St., New York City.

### LOCAL ITEMS.

This is St. Patrick's Day.

Look out for equinoctial sales next week.

Scotch and other gaities are quite numerous these times.

Mr. Samuel Eggleston, of Belleville, is dead, aged 77 years and 8 months.

April 6th is the date fixed for the second reading of the Irish Home Rule Bill.

Several new boilers for the Big Mill arrived this week. They will be placed in position forthwith.

Mr. Samuel Johnson, of the machine shop, lost the tip of a finger of his left hand in a drilling machine the other day.

Four new entry wheels have been placed in the Cement Works at Napawan Mills for the purpose of grinding cement.

The inhabitants of the east end of main street are anxiously inquiring how long it takes an able bodied man to learn the trombone.

Chief Sampson Green and Solomon Loft, and ex-chief Andrew Maracle have been at Ottawa this week on business matters.

The man who stole the oats from Mr. Sczenth as reported in our columns last week was sentenced at Napawan to twelve months in the Central prison.

If mild weather comes the ice on the bay will not last long. Already it is beginning to open at Light House Island, and also at the upper end of Captain John's Island.

Mr. J. D. Fletcher, Mill street, is one of Her Majesty's Justices of the Peace for the county of Hastings, having been appointed when a resident of Rawdon township some years ago.

They are seriously discussing in England the project of building a canal bridge 200 feet high and carrying two railway tracks across the English channel. The estimated cost is \$14,000,000.

The machinery which is being put into the Kingston penitentiary for the manufacture of binder twine will be of sufficient capacity to put out 500 tons a year. It will be put in operation about July 1st.

It is to be hoped that locomotive No. 3, will soon be relegated to yard work as it is quite inadequate to move the enormous amount of cars now moving to the southern section of the Bay of Quinte Railway.

The water in Sucker Creek is very high this year. The travelled road has been submerged on both sides of the bridge on the boundary road, and the railway bridge needs careful watching to prevent ice cakes lodging upon it.

It is said that Mr. John White, ex-M.P. for East Hastings, may be a candidate to represent Vancouver district, British Columbia, in the house of Commons. Mr. Gordon, the member for this constituency, died a few weeks ago.

The weather continued quite mild until Tuesday night, and there was a heavy fall of rain on Saturday night, which cut down the snow at a lively rate. It looked as if spring had arrived in earnest. During the past two days there has been a cold, cutting wind from the west.

This is enumeration week at the post office and Mr. Chapman is kept busy carefully counting all letters, papers and packages which pass through his hands. Twice a year the department makes this demand upon the postmasters of the country.

Mr. Hartley, of Manchester, England, inspected the industries of our town last Friday, and expressed his astonishment at the vast amount of business transacted in Deseronto. He is visiting this country as the guest of Mr. Kitchen, senior inspector of the Grand Trunk Railway.

According to an old legend the baby's dimples mark the spots where angels' fingers touched the child in bearing it from heaven to earth, but unromantic doctors have a different explanation. They say that dimples probably result from defective development of a muscle. When the muscle is called into use the defective portion falls in, and a hollow is left into which the flesh and skin, of the cheek for example, fall, and thus the dimple is formed.

A very pleasant parlor social was held last night at the hospitable residence of Mr. D. W. Darr, last street, under the auspices of the Steady Gleasers of the Presbytery of the County of Hastings.

The large party assembled enjoyed themselves with an infinite variety of games and other amusements. A mandolin orchestra, contributed excellent music. Cakes and coffee were distributed by a zealous committee. A more happy time could not have been spent and the affair netted a handsome amount for the society.

Mr. T. Stapleton, formerly of Marysville, is now station master at Coteau above Montreal. It is a very important and busy position. He has a large staff to supervise as he is joint agent for the Grand Trunk, Canada Atlantic and Central Vermont Railways, and local and transfer agent for the Canadian Express Company. There close to a fine new station building, well furnished, steam heated, etc. His friends in this district are pleased to hear of his promotion to such a responsible position for which he is well qualified.

At a meeting of the Farmers' Institute of Lennox a resolution was passed that as the farmers are engaging more and more largely in dairying, they highly approve and commend the short "winter course on dairying" recently begun at the agricultural college, Guelph, but as the accommodation at Guelph is not sufficient to accept one third the applicants they hoped the Ontario government would consider the necessity for the establishment of a school in eastern Ontario that will give short courses in dairying and other branches of agriculture.

The firm of Welch & Graves, Natural Bridge, N. Y., have just patented a device to catch the flies which are so troublesome in the fly-trap. The device is a small apparatus that can be placed in an animal cage, and the flies will be attracted to it, and caught in the trap. The device is a small apparatus that can be placed in an animal cage, and the flies will be attracted to it, and caught in the trap.

The annual report of the Indian department presented to parliament shows that the expenditure in this branch of the service was \$75,000 less than in 1901. Remembrance.

Miss Bridget Ford, who has been for some time on the staff of the O'Connor house, left yesterday for Toronto. Before leaving, she presented a gift which may be worn with a coming pride on this anniversary of Ireland's patron saint.

Remembrance.

On Monday evening, 6th inst., a quiet wedding took place at Napawan where Rev. J. S. Shofey united in holy wedlock Mr. Company and Miss Ida Lightball, both of Deseronto. They were attended by Mr. Edward Badgely and Miss Tessie Simmonds respectively. The happy couple have been receiving the congratulations of their friends.

Checkers.

At the checkers tournament held on the evening of Thursday, 9th inst., there were several closely contested games. The following scores were made: E. Gaulin 2, J. Kerr 1, draws 3; A. G. Knapp 1, H. Woodall 0, draws 3; D. Goodmurray 1, R. Bayburn 2, draws 1; A. Thierion 0, C. Jacques 5, draw 1; J. Burns 0, R. Geddis 5, draw 1; M. J. Butler 3, W. Mitchell 3, draw 0. Gaulin's team won 9, Kerr's 18, draw 0. All checker players invited to their annual meeting to be held at the Mechanics' Institute room.

Church of the Redeemer.

There will be services in the Church of the Redeemer at the usual hour next Sunday. The subject of the evening series of lectures will be "Joseph and his Brethren." These lectures are listened to by large congregations every Sunday evening. Communion services will be held on the 1st Sunday in April. Rev. Dr. Smith, of Kingston, will assist at the services on that day. A collection will be taken up next Sunday for the Presbytery, Synod and Assembly Funds, for which an average contribution of 15 cents per member is asked. Next Sunday, March 21st.

Nearly three hundred persons were crowded into the West End Mission building at the service last Sunday evening. An excellent parlor social was held in the rooms on Tuesday evening. There was a good program. Readings were given by Mr. F. Sims, Mrs. Winfield, Mrs. Thomas, Mrs. Druse, Mrs. J. B. Smith, Mrs. J. B. Smith, Mrs. D. Powler, Mrs. J. B. Smith, Mrs. Hill, etc. The choir rendered musical selections in a very creditable manner. Mr. Ross, the organist, and Mr. Ross, the organist, gave brief addresses. Games of various kinds were indulged in and all present had a very happy time indeed.

Resting.

Mr. E. T. Langton, superintendent of the Deseronto Cemetery, has resigned that position to accept a situation at St. Hyacinthe, P.Q. Mr. Langton proved a very capable official, being a skilled florist and landscape architect, and all classes of the community regret his departure. The Cemetery Company gave an estimate of a very flattering character testifying to his honesty, industry and capability. Mr. Langton was a prominent member of the Sons of England lodge in this town and took a hearty interest in its welfare. The Tribune regrets that Deseronto is losing such a good citizen and with a host of friends here, in wishing him and his family all success wherever their lot may be cast.

X. O. O. F. in Ontario.

The report of the Grand Secretary shows that 1892 was the most prosperous year that Oddfellows have enjoyed in Ontario for seventeen years. During the year eight new lodges were instituted, making at the close of the year 54 lodges in the province. The membership on Dec. 31st, was 19,445, the number of members initiated during the year being 2,152, re-initiated 138, admitted by card 160. The total amount expended in relief was \$7,089.43; the number of who received sick benefits was 3,023, widows relieved 184, orphans who received relief 16. The total disbursements of the order were \$56,910.38, while the receipts were \$181,015.70. The funds invested reached the handsome amount of \$79,270.34, of which \$804,029.31 is to the credit of the general benefit fund, \$102,491.44 widows' and orphans' fund, \$12,749.70 contingent fund.

Chosen Friends.

Mr. Wm. Hazel, representative from Deseronto Council, No. 141, Mr. Joseph Crothers, of Marlborough, and Mr. Andrew Reid, of Gananoque, left here on Monday to attend the meeting of the Supreme Council of the Canadian Order of Chosen Friends at Montreal. The report of the grand recorder shows that 61 councils with a membership of 1,232 had been formed during the past year. The grand recorder, who was elected at the 23rd of the end of the year. The finances are in a very satisfactory condition. For the relief fund \$56,775 was received last year, while the disbursements were \$35,639, leaving a balance of \$21,134, which now reaches a surplus of \$30,000. In the sick benefit fund there was paid out \$2,709, leaving a balance on hand \$202. Mr. A. E. Lyons, Guelph, was elected grand recorder and Rev. H. J. Allen, Estabrooke, preside. W. Montague was re-elected grand recorder.

A SEVERE ACCIDENT.

An accident occurred on the farm of Chester V. Neville, Ernestown, on Monday, by which a boy six years of age, named Neville, was nearly smothered and almost just above the wist. He had gone out to pick up firewood a companion was splitting, and had reached over his shoulder to get the axe fell upon the outer side of his arm, and cut fully two-thirds of the arm, including one of the bones (the ulna) completely off. He ran into the house, where his grandmother, Mrs. Sweet, at the profligate hemorrhage.

## INGRATITUDE.

How long, then, writes wind,  
How long, then, writes wind,  
As man's ingratitude,  
The tooth is set on the rate,  
Because that it is not,  
Hedge-hol sing, hedge-hol into the green holly,  
Most friendship is fading, most loving more  
folly,  
Then, hedge-hol, the holly!  
This life is most joy.

Freeze, freeze, then blithe sky,  
That does not like to sigh,  
As the water warps,  
And the wind warps,  
As the wind warps,  
As the wind warps,  
Hedge-hol sing, hedge-hol into the green holly,  
Most friendship is fading, most loving more  
folly,  
Then, hedge-hol, the holly!  
This life is most joy.

## THE OTHER MAN.

Said Brown one evening: "There is  
but one vice, and that is selfishness.  
Selfishness is the root of all sin."  
Jefferson was standing before the fire  
lighting his pipe. He puffed the tobacco  
into a glow, threw the match into the  
ashtray, and then he said:

"And the seed of all virtue, also,  
Don't let us forget that."

"Sit down and chat on with your  
wife," said MacShannassy from the  
sofa where he lay at full length with his  
feet on a chair. "We're discussing the  
novel. Farnsworth not noticed during  
business hours."

Jefferson, however, was in an argu-  
mentative mood. "Selfishness," he con-  
tinued, "is merely another name for  
evil. Every deed, good or bad, is  
prompted by selfishness. We are chari-  
table to secure our own pleasure in  
the next world, to make ourselves re-  
spected in this, to ease our own distress  
at the knowledge that we are doing  
a kind because it gives him pleasure  
to be kind, just as another is  
cruel because cruelty pleases him."

A great deal of talk was given to  
cause to him the sense of duty done is  
a deeper delight than would be the case re-  
sulting from avoidance of duty. The re-  
ligious man is religious because he finds  
a joy in religion; the moral man, moral  
because with his strong self-respect, vi-  
ciousness would not satisfy him. Self-  
sacrifice itself is only a subtle self-  
ishness; we prefer the mental exaltation  
gained thereby to the sensual gratifica-  
tion which is the alternative reward. Man  
cannot be anything else but selfish. Self-  
ishness is the law of all life. Each  
thing, from the farthest field star to the  
smallest insect crawling on the earth,  
fighting for itself according to its  
strength; and brooding over all, the  
eternal working for himself, that is the  
universe."

"Have some whisky," said MacShan-  
nassy, "and don't be so complicatedly  
metaphysical. You make my head  
ache."

"If all action, good and bad, spring  
from selfishness," replied Brown, "then  
there must be good and bad selfishness;  
and your bad selfishness is my plain  
selfishness, without any disguise."  
The religious man is religious because he  
finds a joy in religion; the moral man,  
moral because with his strong self-respect,  
vice would not satisfy him. Self-sacrifice  
itself is only a subtle selfishness; we  
prefer the mental exaltation gained there-  
by to the sensual gratification which is  
the alternative reward. Man cannot be  
anything else but selfish. Selfishness is  
the law of all life. Each thing, from the  
farthest field star to the smallest insect  
crawling on the earth, fighting for itself  
according to its strength; and brooding  
over all, the eternal working for himself,  
that is the universe."

"Not always," persisted Jefferson:  
"I've known selfishness to be ac-  
cording to the ordinary accepted mean-  
ing of the term—to be productive of  
good actions. I can give you an instance,  
if you like."

"Has it got a moral?" asked Mac-  
Shannassy, drooping.

"Jefferson mused a moment. "Yes," he  
at length said, "a very practical moral  
—and one very useful to young men."

"That's the sort of story we want,"  
said MacShannassy, leaning back into  
his sitting position. "You listen to this,  
Brown."

Jefferson seated himself upon a chair,  
in his favorite attitude, with his elbow  
resting upon the back, and smoked for  
a while in silence.

"There are three people in this story,"  
he began. "The wife, the wife's husband,  
and the other man. In most dramas of  
this type it is the wife who is the chief  
character. In this case the interesting  
character is the other man."

"The wife—I saw her once; she was  
the most beautiful woman I have ever  
seen, and the only one who was so  
which is saying a great deal for both  
statements. I remember, during a love-  
ly little cottage, she was so sweet and  
place imaginable. I need not describe  
it. The cottage was on a hill, and the  
place was in a beautiful spot. I was  
leaving over the neatly covered table  
hedge, drinking in its beauty, when at  
one of the tiny casements I saw looking  
at me a face. It was a woman's face,  
for a moment, but in that moment the  
cottage had become ugly, and I hurried  
away with a shudder."

"That woman's face reminded me of  
the incident. It was an angel's face,  
until the woman herself looked out of  
it, then you were struck by the strange  
incongruity between the innocent and  
the temptress."

"That at one time she loved her hus-  
band, I have little doubt. Yet the men  
have few virtues, and selfishness is not  
usually one of them. She had prob-  
ably married him, borne toward him  
by one of those waves of passion upon  
which the souls of animal natures run,  
constantly rising and falling. On pos-  
session, however, had quickly given way  
to satiety, and from satiety had grown  
the desire for a new sensation."

"They were living at Cairo at the  
period, her husband had an important  
official position there, and by virtue of  
this, and of her own beauty and tact,  
her husband soon became a member of the  
Anglo-Saxon society over drifting in and  
out of the city. The women disliked  
her, and coffee and conversation were  
slightly of her to their wives. The  
of her to each other, and made idiots of  
themselves when they were alone with  
her. She laughed at them to their faces,  
and mimicked them behind their backs.  
Their friends said it was cleverly."

"One year there came an English  
engineer, who had come out to en-  
grain cement works. He brought with  
him satisfaction and a sense of recon-  
mendation, and was once received by  
the European residents as a welcome ad-  
dition to their social circle. He was not  
particularly good looking, but he was  
particularly charming, but he possessed  
the one thing that few women can re-  
sist in a man. He was a man of the  
world. The woman looked at the man, and the man  
looked back at the woman; then the  
drama began."

"She did not love him; she loved the  
communities. Before a month their re-  
lationship was the chief topic of conver-  
sation throughout the quarter. In less  
than two it rolled the care of the wo-  
man's husband."

"He was either an exceptionally mean  
or an exceptionally good man, according  
to how one views the matter."

He worshipped his wife—the man with  
big heart and weak brain often de-  
voted his whole life to her. It was his  
only duty, and he did it with a will.  
The only duty that would  
compel him to take notice of it, and thus  
bring shame and suffering upon his life.  
That a man who saw her should love  
her seemed natural to him; that she  
should have grown tired of him, and  
thing not to be wondered at. He was  
grateful to her for having once loved him,  
and watched by spying eyes!

As for the other man, he proved  
somewhat of an enigma to the gossip.  
He attempted no secrecy; if anything, he  
rather paraded his subjugation to his  
conquest. It was difficult to decide which  
term to apply. He rode and drove with  
her, visited her in public and in private  
(in such privacy as can be hoped for in  
a house filled with chattering ser-  
vants, and watched by spying eyes!)  
lashed her with expensive presents,  
which she wore openly, and purred his  
smoking end with her photograph. Yet  
he never allowed her to appear in the  
least degree ridiculous; never al-  
lowed her to come between him and his  
duty. He was a man of the world, and  
he evidently regarded as more im-  
portant business. When business came

lashed her with expensive presents,  
which she wore openly, and purred his  
smoking end with her photograph. Yet  
he never allowed her to appear in the

full upon her face. Something about it,  
he could not have told what, struck him  
dumb, and the brain crept on.  
"Gradually," said the husband, "the  
floating through his brain began to so-  
lidity into a tangible idea, and the man  
unconsciously started forward. After  
walking a few steps he broke into a run,  
for the idea had grown clearer. It con-  
vinced him that he was not alone, and  
the man ran faster and faster, until  
at last he found himself racing madly  
toward the door. He had reached it,  
he looked round for the watchman who  
ought to have been there, but the man  
was gone from his post. He was alone.  
"I am alone," he murmured, and it was  
drowned by the roar of the rushing wa-  
ter.

"He reached the door and looked down.  
Fifteen feet below him was the reality  
of the dim vision that had come to him  
a mile back in the woods; the woman  
husband swimming round and round like  
a rat in a pail.

"The river was flowing in and out of  
the lock at the same rate, so that the  
level of the water remained constant.  
The first thing the man did was to close  
the door, and then he opened the door  
the upper gate to its fullest extent.  
The water inched by inch began to rise.  
"The drowning man turned to him a  
face already contorted by the agony of  
exhaustion, and answered with a feeble  
"No."

"He looked around for something to  
throw to the man. A plank had lain  
there in the morning, he remembered.  
"At any rate," he thought, "consoling  
of its having been left there, he cursed him-  
self now for his care."

"A hut used by the natives to keep  
the boats from blowing about 200 yards  
away; perhaps it had been taken there,  
perhaps he might even find a rope.  
"The old fellow did not hear him.  
The feeble struggles ceased. The face  
closed as if with weary indifference.  
There was no time for him to do more  
than kick off his riding boot and jump  
in. He clutched the unconscious figure as  
it sank.

"Down there, in that walled-in trap,  
he fought a long fight with death for the  
life of the good-looking man and the wo-  
man. He was not an expert swimmer,  
his clothes hampered him, he was al-  
ready exhausted by his long ride, but he  
in his arms dragged him down, the wa-  
ter rose slowly enough to make his  
torment for Dante's hell.

him across the face with her ungloved  
hand.  
"On foot," she whispered.  
"He seized her by her white arms, and  
forced her back behind the orange trees.  
"You know why?" he said, speaking  
slowly and distinctly. "Because I want  
to marry you, and that, talked about as  
you grow older and closer to the door,  
to avoid doing so, because I feared that  
without him to stand between you and  
night, you would be a widow. I have  
happened between you and the woman I  
love, the woman I am going back to.  
I now understand."

"Yes," whispered the woman, and he  
left her.  
"But there are only two people," con-  
cluded Farnsworth, "who do not regard the  
saving of the husband's life as a highly  
moral and unselfish action, and they are  
the man himself and the woman."—

The Value of a Trade.  
"Speaking of the value of learning a  
trade," A. D. Pentz, in the Manufacturer  
and Dealer, says: "Now, no matter what  
may be the future of the student of the  
future, whether the present order of  
society shall be conserved or a new  
one inaugurated, it is a fact that every  
able that every boy shall be able to sup-

### NAPANEE ROAD.

Mr. Elder kindly allow me a small space  
in your valuable paper for our Napanee Road  
news and oblige.

Five spring weather Monday and Tuesday.  
The roads are in a very bad state, neither  
wheeling nor sleighing.

Breaking frosts are all the go just now.  
Mendie Kimmerly has purchased a fine  
team of colts. Some young lady will have to  
take a swift ride this summer.

Sugar making will soon begin.  
Mr. Wm. Hudson had five sheep killed by  
neighbors' dogs and three badly bitten.

Mr. John W. Thompson has been tearing  
down the kitchen of his house.  
Messrs. Many Corder and Ed. Sager have  
ceased drawing sand for want of sleighing or  
good wheeling.

Mr. John W. Rooks and family intend leaving  
next Monday for Manitoba where they will  
purchase land.

Messrs. Robert Bowen and Allen Oliver  
are busy day and night looking after the  
interest of the Deseronto Creamery and  
Butter Factory; wish them all success.

It is reported that James Oliver, one of our  
Road boys, has purchased James Leveon's  
farm in the third concession.

We are sorry to hear that Fred Sixsmith is  
very low.

Mr. James Leveon will occupy the house  
where John Rooks lives.

**KINGSFORD.**  
From Our Own Correspondent

Mr. John Blate, of Madison, Wis., is re-  
newing the association of his youth. He is  
staying at present with his brother, Mr. Jas.  
Blate, Jr. He has been absent from his native  
Richmond for eighteen years.

Mrs. Ralph Abbott, is visiting her sister,  
Mrs. Wm. McKee, of Deseronto.

Mrs. David McAllister have begun house-keeping on their own account at  
the homestead on the 6th concession of Rich-  
mond.

Mr. Arch. McCollough has rented the farm  
of Mrs. Walsh, of 4th concession of Tyendin-  
ga. Rumor has it that he is about to take  
up his residence on it—not however in lonely  
bachelorhood, but accompanied by one of  
Richmond's fairest daughters.

In consequence of Miss Wilson's funeral on  
Sunday last the pastor of St. Jude's was un-  
able to fulfill his engagement here. Services  
next Sunday at 3 p.m.

A fine stable is being erected for the im-  
mense horse in connection with the new  
shed at St. Jude's. The patroners will fill  
the lot with hay and the bay with oats.

**TAMWORTH.**  
From Our Own Correspondent

The sleighing in this section is about gone  
and some of our spring birds have put in their  
appearance.

Mr. C. R. Jones has purchased a fine  
thoroughbred gelding, going down to the east  
country to make chess near home.

W. D. Mac has started up his saw mill, he  
has a fine assortment of logs this year.

Mr. Charles Sherman returned home last  
week from a tour in the States.

Mrs. John Wheeler is improving nicely at  
present.

Mr. and Mrs. John O'Brien spent Sunday  
last in Napanee.

Mr. Patrick Hays is at work again at L. J.  
Wells.

Mr. T. F. Hodge, of the Tichenor House,  
Napanee, was in town this week.

The Foresters have engaged Sarah Lord  
Baily to appear on Friday night the 24th.  
She is a highly talented dramatic reader and  
no doubt will have a full house.

The sick are: Mrs. W. J. Fuller, Mrs.  
John Sherman and Howard Armstrong.

Mr. and Mrs. Frank at J. A.  
Fraser's, Mr. Frank at J. A. Fraser's,  
Mr. Wm. Hagerty at Mrs. Walter's.

**DESSINGTON.**  
From Our Own Correspondent

Farmers are preparing for the sugar making  
season which they think is close at hand.

Wegons are now taking the place of sleighs.  
Mr. Harry Phillips and wife, who have re-  
turned from Rochester spent Sunday at guests  
of Mr. R. Ross.

Mr. Richard Conine sold his farm stock and  
implements at auction on Friday last.

Mr. Henry Swan has returned from Eng-  
land where a large fortune was left to him by  
some relatives and will leave in a short time  
for Manitoba where he will probably make his  
future home.

While engaged in a scuffle on the ice at  
school, Richard King fell spraining his ankle  
and is not able to get around yet.

A skating party was held on Mr. Denike's  
marsh on Monday evening, bonfires were  
lighted and the evening was spent very merrily.

While returning from church on Sunday  
evening some young parties discovered that  
their cutter was elevated on two medium sized  
car logs and they were enjoying a pleasant  
down hill ride which probably reminded them  
of olden times when carousers were plentiful.

Who played such a rule joke on such innocent  
people is a mystery. However suspicion  
points to "Texas" and probably "Uncle Sam"  
had a finger in the pie.

The singing school at this place has broken  
up on account of the bad roads.

**SOLMESVILLE.**  
From Our Own Correspondent

Mr. C. Palmer is doing sand to make  
extensive repairs to his cellar.

Mr. R. A. Brooks is busy hauling lumber  
for the erection of a livery.

Mrs. D. H. Solmes is visiting her daughter,  
Mrs. G. Clinton, Belleville.

The late thaw has weakened the ice. There  
is no crossing at Peterson's Ferry, and the  
only way to get over is by crossing from the  
coves below, or at Spencer's above the ferry.  
Engineers of the department of marine have  
been surveying the bay in this section. It is  
said that government may blast out some of  
the rock in the shallow portion of the chan-  
nel, so the vicinity of Tyendinaga and  
Mr. Frank Solmes is collecting material to  
build a hop on a large scale.

Messrs. John Law and others are hauling  
lumber for the erection of a new house.

The ladies of Deseronto are  
cordially invited to visit Mrs.  
Dalton's millinery rooms on  
St. George street, the spring  
opening being still in progress

### ROSLIN.

From Our Own Correspondent

Mr. R. D. Palmer had a cow nearly killed by  
the train last Wednesday.

The high-pressure stage goes on wheels from  
Roslin to Belleville.

Mrs. James Huggins, of Plainfield, is very  
ill, suffering from enlargement of the heart.

Mr. James Hall cut his foot the day follow-  
ing his marriage.

The Roslin folk are erecting a new cheese  
factory about one mile and a half from the  
village.

Mrs. W. W. Roblin's eldest daughter has  
been very ill, but she is recovering slowly.

Mrs. Winters, of Richmond, has been visit-  
ing her sister, Mrs. A. Lloyd, of Thurlow,  
during the past two weeks.

Mr. McFall, of Belleville, is very ill.

Mr. Daniel Phillips, tax collector of Thurlow,  
has been very low all winter. The doc-  
tor holds no hope at all for his recovery.

Mr. and Mrs. Jones, of Thurlow, were visit-  
ing their daughter in Huntington last circuit.

Rev. H. B. Wilson, of Plainfield circuit, has  
started regular meetings at the Zion Hill  
appointment.

The Patrons of Industry have made a great  
preparation for going down to the eastern  
country to make chess near home.

Mr. Miller Mott, teacher of Mount Carmel

### ST. MARK'S CHURCH NOTES.

A liberal offering was made last Sunday  
for the Diocesan Widows' and Orphans'  
Fund. The evening sermon, subject  
"Christ our Example of Forgiveness,"  
was the last of a course upon "Christian  
Virtues."

Rev. A. Jarvis, M.A., rector of Napanee,  
was the Lenten preacher last Wed-  
nesday evening.

The monthly meeting of the Woman's  
Auxiliary to Missionary Conventions as usual  
commenced at the Rectory.

The services on Easter-day are expected to  
be of the usual bright and festive  
character. The choir practice is being  
diligently held and the musical parts will  
be semi-choral with appropriate Eastern  
tones.

Mr. Patton has been partially invalided  
this week with an attack of influenza.

"The Sunday next before Easter" is the  
Prayer Book title of next Sunday, al-  
though

Most of the cheese factories in this district will be in full swing by April 10th.

To-morrow is the anniversary of the consecration of his Lordship the Bishop of Ontario.

The Rathbun Company has about 1500 cords of wood at Lakeside station and adjoining spurs.

Capt. Richard Waters, of Belleville, is in town riding up the steam barge loan for the coming season.

The fair sex are much exercised over an approaching marriage for which invitations are said to be issued.

Already there are numerous complaints about the scarcity of houses. Most people wish to rent houses but cannot find any in town.

Mr. Chas. Doran, blacksmith, of Tyndean, was weighed in Belleville the other day and tipped the scales at 400 lbs. He should go to the World's Fair.

Owing to the absence of rain and to colder weather the waters of Sucker Creek have not risen so high as was expected and all danger of a flood has been averted.

Mr. P. J. Wime, of the corner store, returned home last Saturday from Toronto where he spent several days purchasing a large stock of goods for spring trade.

The annual University boat race took place on the Thames last Wednesday. Oxford defeated Cambridge by half a length. The time was the best on record, 18 minutes and 47 seconds.

The prisoner Kennedy who escaped from Pictou jail was found on Thursday of last week at a farm house seven miles east of Pictou. His feet were so badly frozen that he could not walk.

The railways of the United States carried in round numbers 630,000,000 passengers during 1902. They also carried 392,300,000 tons of freight.

Several citizens were heard complaining the other evening of the superabundance of dogs to be found in Deseronto, and expressing the hope that the Thomas street canine slaughterer would again get in his line work.

A large party went out on Thursday evening to hear the famous Mapleson Operatic Concert Co. It is seldom that the people of this district have an opportunity to hear such a grand musical performance.

There are no native kangaroos except on the continent of Australia. That country contains about 11,000,000 of them. Over a million skins a year are shipped to the United States for use in coat making. Each skin makes about four pairs of ordinary sized shoes.

The Easter school holidays are now for a few days. Formerly they included two days only, Good Friday and Easter Monday. A few days have been taken from the midsummer and Christmas holidays, and added to the Easter term. The schools close on Thursday, 20th inst., and reopen on Monday, April 10th.

Colossal Slinger, the well-known editor and lover of stock, of Pennsylvania, is feeding at the World's Fair the ox Jumbo, which is twelve feet long, four feet high, weighs almost two tons.

Somebody should be growing a big pumpkin to show up along side of the bovine.

The dates of the fair to be held in northern New York state next autumn at present stand: Louisville, Aug. 15, 16 and 17; Antwerp, Aug. 29, 30 and 31; Gouverneur, Sept. 5, 6, 7 and 8; Canton, Sept. 12, 13, 14 and 15; Seneca Falls, Sept. 19, 20, 21 and 22; Malone, Sept. 27, 28 and 29.

Judge Lazler, Judge Pralock, Sheriff Hope, County Treasurer Wills, Warden Thompson and George E. Henderson, O. C., have been appointed a committee to revise the list of constables in the County of Hastings, and to remove from the list those who are not acting, and those who are not capable to act.

Marden Kemp, specialist in piano treatment and tuning, will be here in a short time. Mr. Kemp is employed as special tuner for a number of different agents, thus proving his efficiency as a practical workman in the different finer branches of modern construction as well as tuning. Orders may be sent to the post office, Deseronto, or to Kingston.

Daniel Nichol, of Cataract, calculates that there are 5,000 horses in Frontenac, and for these there is no market. Before the winter is over they will have consumed 15,000 tons of hay, besides straw and other food. They must be put out over summer. He thinks it would be well to convert them into horse meat and ship them to France, China, Japan, etc.

Mr. Charles H. Vanhorne, of Bay Mills, Mich., was in town during the past week visiting Mr. W. H. Vanhook and other friends. It is fourteen years since he was in this town and he was surprised to witness so many changes. He visited the Presbytery Sunday School last Sunday, being in former years connected with it. He was greatly pleased with what he saw in Deseronto.

Mr. McEwen, of the Richelieu & Ontario Navigation Company, spent a few days in Deseronto and got ports along the Bay of Quinte. He is the manager of that line during the coming season and was quite successful in his mission. It is possible the managers of this Company may come through the Murray canal on their down trip during the coming season. This would be a popular move.

W. G. Wilson, Notary, solicitor for J. M. Parrott, has commenced proceedings for partition or sale of the Hermon estate in Adolphustown, in which the following parties are interested: Mrs. Mary G. Hermon, Mrs. A. D. Fraser, Mrs. J. W. Kerr, Colborne; Thos. C. Fraser, Chas. E. Bartlett and M. F. Parrott, Napanee. It is expected the property, consisting of 487 acres, will be sold in about thirty days.

Harper's Magazine in the April number of this year will contain the most interesting story of his adventures and observations in Western Russia. Having been invited by a Russian nobleman to spend a few days "in the barracks of the Czar," he made the most of his opportunities, and took note of many interesting Russian military service and army life which will be new to American readers. His article will be illustrated with a number of striking pictures drawn by Frederic Remington.

There was no meeting of the town council held last week.

A robbery was heard singing in Central park yesterday afternoon.

Elastic strong enough to kill a Thomas cat for sale at Tamworth office.

Mr. George Harper, of Kingston, is visiting friends at the Methodist parsonage.

Mr. Thomas Flegen is temporarily filling the position of superintendent of the Deseronto cemetery.

The weather is characterized by cold easterly winds and spring is delayed very much in consequence.

The streets are nearly all bare of snow, and the country roads are neither fit for sleighing nor wheeling.

Mr. Sandy Armstrong, the well known painter, has returned home from Denver, where he passed the winter.

Mr. Harvey Hopple is spending a few days in town visiting old friends. He is in the city on business, and has accepted an excellent position.

The infant child of Mr. Wm. Carter, which after its mother's death, was taken to Mr. Wm. Goodfellow, Tyndean, died last Sunday. The remains were taken to the vault of the Deseronto cemetery on Monday.

Chief Koughter writes to THE TATLER that he is well and happy in Ohio where they are enjoying his balmy weather. He is located at Orville, Wayne county, and is meeting with great success as a medicine man.

It is proposed to take action under the "Adulteration Act" and prosecute several parties who are selling maple sugar and syrup in Deseronto, which only have the designation "maple" applied to them by a great strain on charity and truth.

We have received a copy of the "Pharmacy Bill," which will be submitted to the legislative assembly next session. Many of the sections are altogether unreasonable in their terms, and no sane assembly of legislators could possibly permit this bill to be law.

There was a great flutter among the ladies of the town last Saturday caused by Mrs. Dalton's military opening. There was a general movement of the fair sex to the rooms on St. George street, where Mrs. Dalton, Miss Cherry and their staff were kept busy all afternoon and evening showing visitors all the new styles in hats and bonnets. The opening was a conspicuous success in every respect.

Mrs. Charles J. Henstridge, who had been suffering from pneumonia, died last Friday afternoon after only two weeks' illness. The remains were taken to Gananoque by train on Saturday forenoon, many friends accompanying them to Deseronto Junction. The funeral took place at Gananoque on Sunday afternoon.

Frederickburg Ferry.

It is not about time that our business men were taking steps to have the ferry to Frederickburg continued during the coming season? It was a great benefit to Deseronto last year and it would be a great benefit if a boat was not placed on the route. The town council, we take it for granted, will give reasonable assistance. In any event immediate action is necessary.

Prosperity.

Mr. Haskin, of Dover Plains, N. Y., who was in Deseronto on business last week, stated that Mr. James D. Burgess, who is the proprietor of the Central formerly of Deseronto, has just completed the erection of a \$30,000 Methodist church in the city of Poughkeepsie, and that he is a prosperous builder. He also stated that Mr. D. E. Hewitt, formerly manager of Bay View Estate for the Rathbun Company, held a seat in the legislature of New York State. He has also invented a boiler or water heater, house warming which is pronounced a great merit.

Church of the Redeemer.

Very large congregations assembled at both services in the Church of the Redeemer last Sunday. The Y. P. S. C. Endeavour meeting was one of the largest held for some time. The subject of the lecture next Sunday evening will be "The Brethren and the Prince Minister." The pastor has been suffering from a severe cold during the week. There will be Communion services on Sunday forenoon, April 2nd. Special services preparatory to Communion will be held on the evenings of Wednesday, Thursday and Friday of next week. All are invited to these services.

False Alarm.

There was a false alarm of fire about 3:20 on Tuesday morning. The whistle blew vigorously and was taken up by the Bell alarm whistle and both kept up their work merrily, thoroughly arousing the town, and all the residents of the town.

As the gas had been turned off of street lamps, the darkness which prevailed was visible, the night being wet and very stormy. People rushed in all directions and many fell off houses and into the water. Men came into collision with each other and some of the shocks experienced were almost fatal. Where is the fire? was the question everywhere heard. It is supposed the wind had crossed the wires and thus given the alarm. Lesson: Do not put out the street lamps on dark nights. Give us a better method of locating fire, and for this purpose the town could be divided into six fire districts.

Grand Opera in Belleville, "Faust."

This grand opera will be produced in Belleville on March 29th, for the first time, by the Mapleson Opera Company. What promise the greatest production ever put on in Belleville, will be the appearance of the Mapleson Operatic Company on Wednesday evening, March 27th. That celebrated artist Louis Schirmer-Mapleson with her company will present, in addition to the selections from other operas, the entire Act 3 of (Gounod's immortal opera "Faust" including the famous Garden Scene, with Miss Mapleson, as Marguerite; Miss Theodore, as Siebel; and Miss M. J. D. as the Evil Spirit. This is guaranteed to be the greatest musical event ever given in Belleville. As Miss Mapleson is pronounced by the ablest critics in America to be second to none, including Patti. Belleville is one of the four lucky cities in this country which will appear in it. As they appear in Montreal, Ottawa, Belleville, and Toronto only, and the town under the immediate patronage of His Excellency the Governor General. This is the greatest attraction that has ever been booked in Belleville, and those having the honor of greatest singer in America do well to take it in. The title of "La Reine de Paris, France," as "If one was to close their eyes and listen, he would think he was listening to a bird and not to Miss Mapleson, while she is making those wonderful thrills."

### Fire at Slaves.

A quantity of paper caught fire in Slaves' store last night, some ribbons and millinery goods were lost. Mrs. Slaves threw his coat and some clothing on the flames and with assistance from the meat market succeeded in preventing a conflagration.

### The Reformer School.

The Sunday school of the Church of the Redeemer is the banner school in the Presbytery of Kingston as far as number of pupils is concerned, the number being 310. It is second in average attendance, as the school in connection with St. Andrew's church, Kingston, had an average attendance of 219 and 245 on the roll. This is a splendid average, truly. Deseronto school had only 180; there is no reason why this average cannot be vastly increased.

### PERSONAL.

Mr. Donald Anderson, of Melrose, was in town on Monday.

Mr. Jacob S. Foster, of Northport, was in town last Sunday.

Mrs. Wm. Stoddard is recovering from her recent illness.

Mr. J. M. Poltras went east last Monday on official business.

Dr. Dulmage, who was on the sick list last week, has returned home from Brighton where he was recuperating under the parental roof.

Mr. George McConnell, of Albert College, Belleville, will spend Friday and Monday in town as the guest of Mr. Robert Anderson, east Thomas street.

Mr. Thomas Callaghan, of Campbellford, and Mr. Joseph Callaghan, agent for the Rathbun Company at Ganarbenburg, were in Deseronto last Monday.

Mr. G. Collins, treasurer of the Central Ontario Railway, Trenton, together with his wife and children, were the guests of Mr. J. A. Snook, Main street, last Sunday.

Mr. & Mrs. C. O. Dorn returned home last Saturday from a very pleasant visit of six weeks among friends in Pictou and other parts of Prince Edward County.

Mr. W. J. McGrath, book-keeper for Messrs. Hodson Bros., of Belleville, spent a few days in town during the past week renewing former acquaintances.

### METHODIST CHURCH.

Services last Sunday were very interesting and largely attended. The attendance at Sunday school was the largest in its history apart from special occasions. Next Sunday services will be conducted by the pastor, who will conclude in the evening last evening's subject, viz., "Foolishness of Wisdom."

The Fair social last Friday evening at the residence of Mrs. John T. Urestris was appreciably successful. It was a most enjoyable occasion, a large attendance, and over \$20.00 receipts at the door.

### BARBAR LORD RAILLY.

Great interest is beginning to centre in the Barb. Lord Railly's recent novel "Wednesday evening. All-day tickets are selling freely, and the prospects are good for a repetition of Mrs. Railly's former success a year ago. Among her favorite readers next Wednesday evening will be "Lily's Ride," "Judgement Day," "Cred of the Bells," and "Royal Bumper Buggy." Don't miss the great treat in store for patrons next Wednesday evening at the Methodist church. The readings will be interspersed with musical selections, vocal and instrumental. Prof. Denmark's Mandolin Club, will take part, and a talented young Banjoist from Kingston will kindly assist. Adults, 25 cents, children 15 cents. Reserve seats 35 cents. Plan at G. E. Seider's.

### GENTLE SPRING.

W. G. Egar says he has more and better wall paper than ever before shown in Deseronto, and the variety of patterns are without number. He has everything that is needed for housecleaning and disinfection. Drugs and medicines for the millions. Books of all kinds with stationery by the carload. Just call and see the goods and you will be satisfied.

Rebecca Wilkinson, of Brownsville, Ind., says: "I had been in a distressed condition for three years from Nervousness. Weakness of the Stomach, Dyspepsia and Indigestion which my health was gone. I bought one bottle of South American Nervine, which done more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy." A trial will convince you. Sold by W. G. Egar. 3152

Mr. Thomas Roach, Jr., formerly of Deseronto, is a member of the council of the board of trade recently formed at Gananoque.

The Salvation Army of Canada intend holding a grand anniversary meeting in Deseronto, extending from the 25th to the 28th of April.

After April 1st the Bridgewater and Plinton mail will leave Tuesday in the morning instead of the afternoon and will return by the evening stage.

The salaries of the county clerk and county treasurer, Place Edward, were raised to \$50 each per annum at the recent sitting of the county council.

Mr. Fred Daly, of London, son of Mr. Edward Daly, Nepean, has contributed \$1,000 to the new Victoria University, Toronto. He is a graduate of Victoria.

Deer have been suffering great destruction from wolves in the back townships as the "crack" on the snow will not carry the deer who then fall an easy prey to their enemies.

The Rathbun Company have received the contract for the plank required by the corporations of Gananoque and Front of Leeds and Lanarkshire—in all about 100,000 feet.

"Well, if that ain't mean," exclaimed the prisoner, "every one of the stories in this here paper they've given me to read is 'crack' on me going to be hung next week."

Capt. John Gowan left last Friday evening for Oswego to hasten forward the work of fitting up the steamer Resolute for the coming season. This vessel it will be well remembered, was compelled to go into winter-quarters at that port.

A deputation consisting of two fair ladies of the east and one gentleman, Mr. Richard H. Baker on St. Patrick's day and presented him with a pretty green flag and a large bouquet of flowers. Mr. Baker thanked the donors for their gift. His only regret now is that he was not born on the Emerald Isle.

## EARLY STEAMBOATS AND STEAM SHIPS.

Mr. Sanford Fleming at a recent meeting of the Canadian Institute read an interesting paper on early steamboats and early steamships. Several of the facts mentioned will be of interest to readers of THE TRIBUNE. There are many records of attempts to propel vessels by steam before the beginning of the century. The first successful vessel was that of Mr. Miller, on Lake Ontario in Scotland in 1788 and of Mr. Symington on the River Clyde and the Canal some twelve years later. These and other inventors devoted much time and money to accomplishing their object, but these early efforts were of the character of experiments, and it is generally conceded that the first really successful attempt to navigate by steam power for regular public traffic was in 1807. In that year the Clermont was launched on the Hudson, New York. She was built by Mr. Fulton who had visited Scotland and profited by the efforts of Miller and Symington. The Clermont was 130 feet long, 25 feet broad, 16 feet deep. Her engine was made in England. She attained a speed of five miles an hour and plied between New York, Albany and Troy for some years. In 1809 the first steamboat appeared on the St. Lawrence. This was the Accommodation, built by John Molson, of Montreal. She was 350 feet long, 40 feet keel and 85 feet long on deck. She made the distance from Montreal to Quebec in 36 hours sailing time. Other countries followed suit. As far as investigation shows regular steamboats were seen for the first time in the following order: on the Hudson in 1810; St. Lawrence in 1810; Clyde in 1812; Severn in 1813; Mississippi in 1814; Humber in 1814; it was 1815 before they appeared on the Thames, England; the same year witnessed the first steamer plying on Lake Ontario. The third vessel on the list, that launched on the Clyde in 1812 was built by Henry Bell and named the Comet. A monument has been erected to his memory on the River Clyde.

The United States and Canada both claim the honor of building the first steamship to cross the Atlantic, but a consideration of all the facts lead to the conviction that the Dominion is entitled to the honorable distinction. Those who favor the claim of the United States found their argument on the ship Savannah, a vessel built in New York, and launched on August 16, 1819. She was 300 feet long, 40 feet keel and 85 feet long on deck, and shifting paddle wheels were contrived so that they could be lowered over the sides of the vessel in calm weather and brought again on deck when the wind rose. She had small capacity for coal and some assert that she burned only wood. She was simply then a sailing ship with a suitable weather made use of paddle wheels. The Savannah crossed the Atlantic in 1819, leaving the port of Savannah May 22nd and reaching Liverpool June 20th, thus making the passage in less than thirty days. It is stated that steam was used over eighteen days, and the log records that the shifting paddle wheels were used for a few hours at a time when the condition of wind and sea admitted, but it is obvious that the sails were chiefly depended upon throughout the voyage. There is no mention as to the paddles having been used on the return voyage and on her return to America the machinery was removed and she assumed her original character as a sailing ship. Giving the Savannah the fullest credit for all that may be due to her, it cannot be affirmed that she crossed the Atlantic under steam, nor can it be pretended that she was the pioneer of the ocean steamship service of today in any sense. The only other example on record of a vessel similar to the Savannah is the Enterprise, a ship which made a voyage in 1825 to India assisted by steam.

The first steamship to cross the Atlantic was the Royal William, a vessel built by a joint stock company at the yard of Campbell & Black in Quebec, in the year 1830-31. The designer of the ship and superintendent of its construction was James Goudie, born in Quebec 1809, and died 1892. The ship was launched in 1831 with more than ordinary ceremony and was named after King William IV, then on the throne. The ship was towed to Montreal to receive her machinery, and on being fitted for sea, her first voyage was to Halifax. Before setting out for England, she traded between Quebec, Boston and New York, and was the first British steamer to arrive at the latter port. The first of her owners appears the names of the three brothers Joseph, Henry and Samuel Coad, of Halifax. Her dimensions were: length 160 feet; hold 11 feet 2 inches; breadth outside 44 feet; breadth between paddle boxes 28 feet; she had three masts, schooner rigged; builder's measurement 1,370 tons; with accommodation for sixty passengers. The engine, boiler and machinery were furnished by St. Mary's foundry, Montreal. The Royal William left Quebec for London August 6th, 1833, calling at Pictou, N.S., to receive coal and overhaul machinery. She restarted from Pictou, August 15th, with seven passengers, 254 barrels of coal and a live cow. She encountered a terrific sea on the banks of Newfoundland which disabled one of her engines. The Portuguese government to enter the service of Don Pedro as a troop ship. In 1834 she was sold to the Spanish government, who converted her into a war steamer, and under the new name of Isabel Segunda she was employed against Don Carlos, and it is actually believed that she was the earliest steamer of war in the history of nations to deliver a hostile shot. After a successful service for some years she was sent to Bordeaux for repairs, when her timbers were found to be so rotten that she was ordered to be broken up. She was transferred to a new vessel, a second Isabel Segunda, to form part of the Spanish navy. What was left of the original "Royal William" remained a hulk in the French port.

The Canadian built Royal William undoubtedly proved to be the pioneer of Atlantic steamship. She was the first runner of the great Cunard line. Sir Samuel Cunard, with two brothers, were part owners of the vessel. Sir Samuel was a man of great business ability. The success which attended his experiment convinced him that sailing ships as mail packets were doomed. He at once grasped the situation and bent his energies to obtain a contract for carrying the mails and finally succeeded in 1839. Four line steamships were at once ordered and constructed, and these vessels proved the beginning of the magnificent fleet of steamships which ever since have been the honored name of Cunard. Canadians cannot but be

proud of the distinction thus gained for their country by these pioneer naval architects, engineers and business men, and, as Mr. Fleming suggests, some action should be taken to suitably commemorate their achievements.

## DEATH OF AN AGED RESIDENT.

Capt. Isaac Morden, one of the oldest and most respected residents of the Bay district, died at his residence, Northport, at 9 a.m. Saturday, March 18th, aged 86 years, 5 months and 18 days. The deceased was born at Northport on Sept. 30th, 1799, and was the son of Isaac and Margaret Morden. Mr. James Morden, father of the deceased, was one of the United Empire Loyalists, who first settled on the shores of the Bay of Quinte. He belonged to the King's Royal Provincial Regiment of New York State, Sir J. Johnson, commander, and was discharged in 1785 at Montreal. He was the first person who built at the present village of Northport; his wife's maiden name was Parlane. The subject of this notice had lived all his life in Northport, his residence being the stone house about one quarter of a mile from that village, facing on the shore of the Bay of Quinte. Here he lived and prospered as a successful farmer, and was held in high respect by people of all classes. He married Miss Lucy Craig, by whom he had four children, one son and three daughters. His wife died several years ago, and his son William died in 1847. His three daughters still survive: Mrs. John Baker, of Michigan; Mrs. Jas. Redner, of Redensville, and Mrs. Wm. Dyer, who lives in the household with her father. He held a captain's commission in the militia, and commanded a troop of cavalry during the rebellion of 1837. He has been stationed at Northport for many years, and was a great attention to raising horses, in which he was very successful. It was he who first developed the Tipple Tipple breed, which gained such a name in later years. He was in great demand as a judge of horses at the various fairs, and frequently served in that capacity at Kingston and other leading centres of the district. He was ever distinguished for his kind and generous nature, and this he maintained until the last. He was distinguished for his wonderful memory of past events, and could give day and date on which circumstances occurred to a degree which was truly marvellous. He was only sick a few days, and retained his mental faculties to the last. He was a staunch Conservative, and did good work for his party in many a campaign. He was a consistent member of the Church of England. The funeral, which was very numerous attended, took place on Monday afternoon. As deceased had been a member of the aged pioneer lodge the members of the lodge attended in a body. Flags were flying at half-mast to the memory of the aged pioneer. The funeral service was preached by Rev. Mr. Loucks, of Pictou, who took as his text, Psalm 3: 17, from which he delivered an eloquent sermon. The remains were subsequently interred in the Laker cemetery, near Northport.

## KILLED AT NAPANE.

At Napane about two o'clock Friday, 17th inst., a sad accident occurred, whereby a young man lost his life. John Vanastine, messenger for the Dominion express company, son of Irvine Vanastine, went to the station to secure a place for F. W. Hart. The place was placed on a sleigh, and John's men were letting it down flat on the sleigh when Vanastine's feet slipped throwing him forward. The support having been withdrawn the pole of the sleigh fell on his head under it. Those assisting were almost paralyzed when they saw what had taken place. They quickly lifted the pole, and the victim, bleeding profusely from a wound in the head, his skull having been crushed in. Medical aid was summoned, and he was carried into the residence of James Richardson, of the C.T.R., who lives close by. The doctor pronounced death as instantaneous. Those who were helping with the pole may be seen uttering a sound after the instrument fell. Deceased was a young man about twenty-eight years of age, was married and leaves a wife and several children. He was universally respected, being of a genial disposition. The sad accident has cast a gloom over the town.

## WHAT SAYS P. MONEGAN?

(Brockville Times.)

For several years past my wife has suffered from great pain in her back and hips and a feeling of weight and pressing down. She would be taken so bad every two or three weeks that she could neither eat, sleep or rest for three or four days and nights. The doctor said it was piles and made her sit over hot water and gave her ointments and washes and I don't know what all—then the piles would bleed and had every two or three weeks that she could neither eat, sleep or rest for three or four days and nights. It was a lucky thing we got that Magic Pile Lotion and we hear so much about it. We have used it for what it is called and it cures them in one night.

(Signed) P. MONEGAN.

Magic Pile Lotion is a most reliable and powerful remedy for piles, hemorrhoids and ailments for which it is recommended on the Covers and Labels, and many other affections of the rectum.

It is prepared only by the Salvator-Magnum Medicine Co. of Brockville, Ont., who also manufacture the great lung remedy "SALVATOR-MAGNUM" and that unrivalled cough mixture "MAGNUM-EXPECTORANT." These medicines are for sale by all regular Druggists.

Those who are fortunate enough to possess a maple woods are now busy gathering the sap and converting it into delicious maple syrup and sugar.

Our teacher Mr. Charles Simpkins, is suffering from an attack of diphtheria and the school is accordingly closed for some time.

In a previous correspondence we mentioned that Mr. Kennedy, of Northport, had leased Mr. Connell's blacksmith shop, but different arrangements have been made and Mr. Walsh, from the vicinity of Read, will take immediate possession.

### ALBERT.

From Our Own Correspondent.

Some of the foremen of spring have already appeared in our midst such as the robin and other migrating birds. And yet we are forced to look out upon a field of ice and snow the heritage which departing winter has poured into the lap of spring in sufficient quantities to keep the fire away for some time yet.

The farmers are busy cutting their summer's supply of wood.

Sugar making is in full blast.

Measles and whooping cough are making the rounds in this locality.

Rumor has it that Richmond is about to lose one of her fairest daughters.

Mr. Allen Croft lost one of his best cows the other night.

Stephen Murphy met with an accident the other day. While leading hay at Mr. Wright's barn the horses started ahead, throwing him of the load to the ice below. He received a severe cut over his left eye but is improving rapidly.

Mr. Philip Croft left last Thursday for Watertown, N. Y., where he will spend the summer.

A. Lloyd, of Philipstown, Thurlow, is visiting at Mr. Richard McTaggart's.

Mrs. G. Winters with her son, of Selby, was visiting her brother, Mr. K. McTaggart, this week.

J. H. Hudson, of Mount Pleasant, was visiting Mr. James Turnbull last Sunday.

### WESTBROOK.

From Our Own Correspondent.

The roads are almost free of snow and the people think that spring has almost come.

Our young people have been taking advantage of the good skating during the past week some lively times have been experienced.

Miss Lydia Jackson, of Eggleston, spent last week visiting Miss E. Gates.

Mr. A. Howie is slowly improving under the skillful treatment of Dr. Melrose, of Westport.

Mr. Coulter, of Hinchinbrook, is moving to the farm of Jacob Gardner.

Miss Lizzie Sheehan left to-day to spend Easter at Tyndinaga.

Rev. Mr. Bates occupied the pulpit in the C. M. church on Sabbath last.

P. M. Grass is preparing for sugar making; prospects are good for a big cake this spring.

### TYNDINAGA RESERVE.

From Our Own Correspondent.

Divine service (at D. V.) held in both churches on Good Friday at the usual hours.

We were pleased to see carpenter George Marsdale and family returning from Caughnawaga where they spent the winter.

Mr. Barker Powles one of our oldest inhabitants is seriously ill.

People are not so fond of scavengers of Deseronto dumping their carts on the Reserve.

William G. Marsdale and family are making sugar in the third concession of Tyndinaga.

The annual vestry meeting of the Reserve will be held in Christ Church on Monday next at 11 a. m.

It will soon be in order to hear the whistle of the ferry steamer "Prince Edward."

# What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays Feverishness. Castoria prevents vomiting Sour Cud, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

## Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. OGDON, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real nature of their children, and use Castoria in place of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other harmful agents down their throats, thereby causing them to premature graves."

Dr. J. F. KENNEL, Conway, Ar.

## Castoria.

"Castoria is well adapted to children. I recommend it as a superior remedy for colic, worms, etc."

Dr. H. A. ARNOLD, M.D., New York City.

"Our physicians in the children's department have spoken in high praise of your Castoria. It is a safe, reliable, and pleasant medicine, and is free to confess that I have used it with the best results."

## AMBASSADORS AND MINISTERS.

There is a political importance in the elevation of the British and French Ministers to Washington to the rank of Ambassadors in the smaller promotion of American Ministers to London and Paris. It is a high rank certainly and means large salaries, and it likely implies that the United States at last give to the representatives of the great Powers to treat its Ministers upon the basis of Ambassadors until they are finally elevated to the rank of Ambassadors through home legislation and appointment. Hitherto the American Minister at London and at all European Capitals has been sent as Ambassador by the Ambassadors of the United States.

This is owing to the fact that under the ancient and modern diplomatic code, an Ambassador is one who has been accredited by one potentate to another and who represents the sovereign himself, while a Minister Plenipotentiary, although accredited to the Crown, represents only the state, and not the person, its chief, according to the definition, which may be considered as authoritative, the coming American Ambassador in England will represent, not the United States but Grover Cleveland!

But the substantial advantage is afforded an Ambassador over a Minister. The former may at all times demand a personal interview with the Sovereign as a matter of right while the latter can only claim an audience as a favor. This privilege however, would be more useful in Russia or Germany than Great Britain, where a conversation with the monarch is a privilege of State. Foreign Affairs would answer the purpose fully as an audience from the Queen. The change so far as the United States is concerned, turns upon the recent legislation authorizing the President to create Ambassadors in the place of Ministers as representatives of the United States. The chief of the American countries will follow the example of Great Britain and France so soon as they receive assurance of the American Ministerial being raised to the rank of an Embassy.

## WHAT SAYS T. MONEGAN?

WELL THIS IS WHAT HE SAID TO US ON THE 21st DAY OF FEBRUARY, 1893.

(Brooklyn, N.Y.) For several years past my wife has suffered from great pain in her back and hips and a feeling of weight and pressing down. She would be taken so bad every two or three weeks that she could neither eat, sleep or rest for three or four days and nights. The doctor said it was piles and made her sit over hot water and gave her liniments and washes and I don't know what all—the piles would bleed and she would get some relief, but the pain would not be relieved, but the piles and the pain would get laid up again. In this way she continued to get worse and worse, though she tried a great many things from the doctors and others. Well I think it was long in August, or perhaps September last, she took the worst pain she ever had and she could not get up and she could not sleep, sit or lie for the pain. At this time we were told to try "Magic Life Lotion." We did so and in less than an hour she got up and felt better. She had got so bad for three days and nights. In less than a week she was about the house attending to her work and she has had no return from her pain since. It was a lucky thing we got that Magic Life Lotion and we hear many others giving it praise. We have used it for it changed this winter and it cures them in one night.

(Signed) T. MONEGAN.

Magic Life Lotion is a most reliable and prompt remedy for all those diseases and ailments for which it is recommended on the Covers and Labels, and many other afflictions. ## THE RIVALS CASE.

BRANTFORD, Ont., Feb. 23.—A man named Rival who was discharged from the hospital here some time ago, as incurable, suffering from complication of diseases, resulting from diseased kidneys, has been cured by Dodd's Kidney Pills. His case is the current talk of the town. So far he has run down that he lost the power of his arms and legs, also the muscles of his neck, and was as helpless as a child. He is now a strong healthy man again, and never again will feel the throbbing of that wonderful remedy which saved his life.

## UNCLE SAM'S CATS.

Three hundred and odd cats are maintained by the United States government at the cost of their support being carried as a regular item on the accounts of the post office department. They are distributed among about fifty post offices, and their duty is to keep rats and mice from eating postal matter and mail sacks. Their work is of the utmost importance wherever large quantities of mail are collected, as for example the New York post office, where from two to three thousand bags of such material are commonly stored away in the basement.

Formerly says the New York World, great damage was often done by mischievous rodents, which chewed holes in the sacks and through the bags of letters carried through the mails in a night. Doubles of this sort no longer occur, now that the official pussies keep watch. Each city postmaster is allowed from eight to forty dollars a year for the keep of his feline staff, sending his estimate for "cat meat" to Washington at the beginning of each quarter. Cats taken out of the feed and sent to "high" in order that their appetite for live game may be keen. It is laid down as a rule that no meat shall be given when there is a mouse or rat to be caught.

Cats are kept at all the government buildings in Washington, in that of the state and many departments, they are employed to keep the post office premises paper stored there but to guard against fire. Twice the war department has been set afire by a gnawing match—on each of these occasions in the office of the secretary of war in the middle of the night.

Rite occupied the pension office in great numbers of cats was taken to building taking up their residence in the walls and floors as fast as they were put up. Two years ago four cats were introduced there to guard the records of the pension office, and they have driven most of the vermin away.—Exchange.

## LOCAL ITEMS.

Courtesy court sittings in banc, commences on Monday next.

Monday next, being Easter Monday, is a statutory bank holiday.

Many important announcements in our advertising columns this week.

To-day, just eighty-six years ago, the slave trade was abolished by Britain.

Next Wednesday is the three hundred and ninety-fourth anniversary of the discovery of Canada.

There was an ice shove at Belleville on Tuesday afternoon and the lower portions of the city were inundated.

Railway tracks at this time of year suffer from the frost coming out of the ground. Careful driving is necessary.

The wind yesterday broke up the ice wonderfully above town. There is nearly two miles of blue water in that direction.

The ice opposite the town and down the bay is still quite solid. Teams drove from Northport to Belleville the other day on the ice.

A little contraband took place the other day between a functionary and the wife of an employee, but no blood was spilled and honors were easy.

Mr. Daniel Whelan had one of the ends of his fingers crushed off last Saturday morning while coupling cars. Dr. Vandervoort attended to his injuries.

Dr. Oronchatsky, Supreme Chief Ranger of the Independent Order of Foresters, is expected to be present at the meeting of Court Deseronto, No. 83, this evening.

Among other events booked for the Deseronto opera house next week are the Deseronto minstrel troupe and Henry W. Winchell in the grand drama, "Countryman."

Mr. D. B. Solmes, of Solmesville, was seriously injured on Monday by a fall, the back of his head striking with great force on the ice. He was reported yesterday as gradually recovering.

Rev. Father Kelly, secretary to Archbishop Cleary, arrived from Europe on Tuesday. He was absent five months, having been called away to the deathbed of his father in Waterloo, Ireland.

Mr. Chas. J. Heustighe desires through the columns of the Tribune to thank his friends and neighbors for all the kind assistance which they so generously extended to him and his family in their recent affliction.

The Amptor Watchman is responsible for the statement that Mr. Noble Bennett, employed in Gillies' machine shops, Carlton Place, recently tempered a punch which punched 4,500 holes and was then not much the worse for wear.

Mr. George R. Smith desires to thank all the kind neighbors, and especially the members of Deseronto Council, Royal Templars, for their great kindness and sympathy extended to himself and family in their affliction during the past week.

At the last meeting of Deseronto Council No. 289, Royal Templars of Temperance, resolutions of condolence were passed conveying the sympathy of the members to Bro. C. J. Heustighe and George R. Smith in their recent bereavements.

A dispute arose between landlord and tenant in the west end of the town, last Saturday, but an amicable arrangement was arrived at without recourse to law, which at the preliminary stage of the proceedings appeared imminent. "All's well that ends well."

Mr. Charles Campbell, who was one of the early residents of Deseronto, lost his house and its contents in Olden township recently. Mr. Campbell was in town yesterday arranging for material, etc., to rebuild his premises. He fortunately carried \$300 insurance.

Mr. W. J. Emerson sends us a copy of the Gladstone Age, a weekly little sheet recently started at Gladstone, Man. Among other local items, we observe that "An evening with Teunissen" was the theme with a happy gathering at the residence of Mr. W. J. Emerson last Friday evening.

The Bay of Quinte, Meest Company will make a grand display of Easter beef, etc., to-morrow. They received a number of fine beef cattle from Toronto this week. The animals averaged 1183 lbs. per head.

Patrons and visitors are invited to call Saturday morning and inspect their display.

Rev. R. J. Craig was in Belleville on Monday attending the funeral of Mr. George Maclean, son of the Rev. M. W. Maclean, who died recently in California.

The funeral was very numerous, attended by many friends coming long distances to be present. Mr. Craig was one of the bearers.

The weather during the past week has been backward, being clear and cold, the winds being chiefly from the northeast and northwest. Yesterday it was quite stormy for a few hours in the morning with buries of snow. Warm rains are much needed to take away the snow which still remains in the woods and back townships.

George Neely, aged 45 years, living about five miles south of Sarnia Lake, committed suicide Tuesday morning by cutting his throat with a case knife while laboring under temporary insanity. He informed his wife that he would commit suicide but no attention was paid to his threats. He is the father of five small children.

Mr. Thomas Roach, Jr., of Gananoque, has sold his property on the corner of Thomas and Prince street in this town to Mr. W. H. Vandriess. This is the fourth transfer of property which Mr. Roach has made during the past ten years in Deseronto and vicinity. Mr. Roach states that he has invariably found The Tribune an excellent medium for advertising purposes.

Miss Lake's millinery rooms were the Mecca last Saturday of a great number of ladies of the fashionable fashion. The fair sex greatly admired the selection of hats, bonnets, millinery, etc., which Miss Lake and her busy staff had arranged for the occasion. The exhibit of new styles was greatly admired and evidenced much good taste on the part of the fair proprietor. The opening was very successful in every respect.

On Thursday last week, Thomas, the adopted son of Mr. J. A. Peterson, Hay Bay, while at school went out with some boys on an ice boat, when it struck some obstruction and the lad was thrown quite a distance his head striking the ice. He was carried to the schoolhouse by his companions and Dr. Newton was summoned. He remained unconscious and died during the night. It is probable that there was some internal fracture or a clot of blood had formed on account of the shock. He was a smart boy, and about fourteen years of age.

## PERSONAL.

The annual meeting of the Deseronto Canoe and Rowing Club, for the election of officers and other business, will be held in the class room of the Mechanics' Institute at 8 o'clock Friday evening, 31st inst. A full attendance of the members is requested.

## Consent.

A concert under the auspices of the Study Gleasons Society of the Church of the Redeemer, will be given next week or the one following. The society have engaged some splendid foreign talent and guarantee a very first class affair. It will be held in the Deseronto Opera House.

## Easter Meats.

Mr. Robt. H. Baker, market square has the choicest beef ever shown in town for his Easter trade. His lamb and veal are far ahead of any offered in our market, and with his choice meats of all descriptions he is sure to please his numerous customers who are desirous of toothsome meats for Easter.

## A Young Artist.

We were shown a drawing book the other day containing specimens of drawing by Walter Alphonsus Vandeboncoer, a part second book pupil in the department of the public school taught by Miss Menelly. They were exceedingly well executed for a lad of his age and school class. He has evidently a talent for drawing which should be carefully cultivated.

## Disorderly.

A citizen at the east end of Thomas street who is evidently slow to get an application of the late nine-tails, recently ill used his wife, choking her until she was black in the face and afterwards throwing her out of the house. He upset a lamp and set fire to the house. Mr. A. Revere burst open the door and with other neighbors extinguished the flames. The racial still goes unquashed.

## Salvation Army.

A great farewell meeting will be held in the Salvation Army barracks on Wednesday evening, April 6th, when Divisional Officer Houston, of Kingston, will bid farewell to this corps. Captain Coombe and Mr. Ramon will also be present and deliver stirring addresses. Everybody welcome. Preliminary services will be held Sunday at 10:30 a. m. and at 8 and 9 p. m. The army is doing good work under the direction of Capt. Blois, who is a general favorite with Deseronto people.

## Some's Creativity.

Man's one that ought to know better tied a large dog to the track near the Terra Cotta Works, on Thursday last week. The poor animal was cut in half by the train running from the Junction, despite the efforts of the engineer to prevent to do so. There is a law to prevent people putting obstructions on a railroad track and it would cover a case of this kind. The authorities should spend some time in searching for the offender who should be severely punished for such murderous cruelty.

## Fire at Northport.

The large brick dwelling owned by Mr. Henry Fox and a quarter of a mile from Northport, was burned last Tuesday morning. Mr. Fox and another man were at work in the upper story when the fire broke out in a partition. The fire was caused by a board falling and breaking a glass jar filled with kerosene which was close by. The contents of the jar were immediately poured on the floor and the fire was too far advanced to save the house. A small quantity of the furniture was saved. Loss about \$4,000; insurance \$2,200.

## Church of the Redeemer.

There were hearty services and large congregations at the Church of the Redeemer last Sunday. The meetings in the parlour of the church of the Redeemer were very large. Next Sunday there will be communion service at 11 a. m. Rev. Dr. Smith will assist the pastor. The usual preparatory services will be held on Friday evening. There will be a special Easter service next Sunday evening at 7 o'clock. Rev. T. C. Smith, D. D., will be the preacher on the occasion. The collection next Sunday are in aid of the season fund. The Y. P. S. C. Endeavour will hold a consecration service at 8:30 p. m. All are invited to these different services.

## Dairying Interests.

The Intelligence states that there are sixteen cheese factories in Hastings county and that these make three quarters of a million of cheese worth of cheese every year. These factories on the whole average 120,000 boxes a year, which call into service 25,000 cows. These figures show the magnitude of the dairying interest. Rawdon township takes the lead with ten factories, Madoc has nine, Sidney has seven, Thurlow seven, Tyendinaga six (counting the factory of the Deseronto Creamery Company from the Intelligence list and which would make sixty-eight in the county.) Hungerford 4, etc. The factories in Tyendinaga are: Shannonville, Mountain, Milrose, Albert, Rosbud and Deseronto.

## The Congregational Company.

This clever company made their second appearance in town on Tuesday evening of last week to a large audience in the Opera House under the auspices of Court Deseronto, I. O. F. The applause was frequent. Miss LaBell lent pleasant variety to the programme of the evening. Interest. Rawdon township takes the lead with ten factories, Madoc has nine, Sidney has seven, Thurlow seven, Tyendinaga six (counting the factory of the Deseronto Creamery Company from the Intelligence list and which would make sixty-eight in the county.) Hungerford 4, etc. The factories in Tyendinaga are: Shannonville, Mountain, Milrose, Albert, Rosbud and Deseronto.

## West End Mission.

A very enthusiastic meeting of friends of the West End Mission was held in Union Hall on Tuesday evening to take into consideration the erection of a chapel in connection with the Mission which has long since outgrown the capacity of its present premises. The question was discussed with much length and interesting addresses were given by many gentlemen present upon the occasion, all testifying to the splendid work which had been done by the Mission under the guidance of Mr. Lowe and his predecessors. It was resolved to proceed forthwith with the erection of the proposed chapel, hearty support being freely guaranteed to the project. The committee have had plans made by a competent architect. There was a very large assembly at the Mission on Sunday evening, when Mr. Lowe presented to his hearers the picture entertained by very many scholars and travellers by which the North American Indians and instruments with the ten tribes of Israel, and deduced practical lessons therefrom.

## MURDER NEAR GANANOQUE.

A fatal case of shooting occurred about eight miles east of Gananoque, between that town and Lansdowne village, which John Fitzsimmons lost his life. The ownership of a small and a small piece of land in the locality was in dispute. Fitzsimmons claimed it by right of purchase from all the heirs but one, and Mrs. Joles claimed it as her own, whose interest had not been purchased. Some weeks ago Mrs. Joles' family moved into the house and took possession, but they were subsequently ejected by Fitzsimmons and his sons. Several charges of assault were presented to the magistrates, and bad blood was thoroughly aroused. Fitzsimmons held possession of the property, and evidently was prepared to assert his rights against all comers. On Saturday Mrs. Joles and her family returned to the property, taking their effects. Charles Shipman, the alleged murderer, in Mrs. Joles' father, and his story is that he happened to be passing the place when his daughter reached the house with her things. They called him to assist them in unloading, and he went over to the house. As they stepped to the door Fitzsimmons stepped to the door and forbade them entering. Shipman attempted to enter with his gun, and tried to go in the house. He says that Fitzsimmons then fired several times with his revolver and then he Shipman mercifully over the head with it. Shipman retreated and Fitzsimmons retired and closed the inside door. A son of Shipman, Thomas by name, was returning from duck shooting, having a loaded gun with him. His father took the gun, and, going to the door, called out that he was not afraid now and could shoot too. He pointed the gun at the inside door, when it accidentally went off, the shot going through the door. Waiting a few minutes, Shipman opened the door and found Fitzsimmons lying dead on the floor, the shot having penetrated the chest. Shipman subsequently surrounded himself to the authorities. Fitzsimmons was 57 years old. One of his sons is a merchant and postmaster at Rockport. The coroner's inquest resulted in a verdict of self-murder being returned against Shipman, who has been committed to Brockville jail to stand his trial at the approaching assizes. Mr. and Mrs. Joles and Thomas Shipman may be held as accessories to the crime.

## A MANITOBA LETTER.

Mr. W. J. Emerson, formerly of Deseronto, writing under date of March 15th from "Westmore Farm," Gladstone, Manitoba, states: "This has been a peculiar year in many respects. The first peculiarity noticeable was the terrible coldness of the winter, which came on the 27th of April, when people were thinking spring and warmth had really come. This was the worst and most unloading blizzard within the recollection of the oldest resident of this part, its only redeeming feature being that it was not so very cold. People thought that the crop would be ruined, but the late of the spring was more than compensated for by the almost tropical growth, owing to the frequent rains and unusual heat of the summer. I began cutting wheat on the 10th of August, six days earlier than the previous year of 1891, so that I had my wheat entirely cut before the frost came. Although the crops in some parts of the province were not up to the average, still in the county of Westburne they were excellent, and very little was damaged by frost. The yield and quality were good, but to offset this the prices have been very poor.

"This has been an exceedingly long winter, with some extremely cold weather during the latter part of January and fore part of February, the coldest morning here being on the 1st day of February, when my thermometer registered 45 degrees below zero. The ground froze up on the 5th of November, and snow fell the next day and has remained ever since. There has been nothing to equal the excellence of the sleighing since I came to the country. The first fall of snow, coming early as it did, was damp, and lay evenly all over the country, so that there has been uninterrupted sleighing since Nov. 5th.

"Some parts of this province are at a disadvantage in regard to cattle and horse raising, owing to a deficiency in the hay supply, but here not require hay, and are exceedingly profitable, so I fancy this province will be a great pork-producing part of the Dominion before many years. The low price of wheat has set many thinking in this direction. Barley is a safe and easy crop to raise, and comes in as excellent feed for pigs and hogs.

"We are all in the enjoyment of the best of health at present, and have been throughout the year."

## WOMEN ON DUTCH RAILWAYS.

Long Hours and Small Pay for Doing Comparatively Light Work.

The British consul at The Hague says that, as regards the employment of women and children on railways, it is a pity that the latter are not more fully made use of at the several railway works, their parents being glad of the one or two florins they are able to earn for comparatively light work. They are occasionally put to similar work on the permanent way, being paid at the rate of 75 or 80 cents. The women are chiefly employed in cleaning the carriages, working on an average eight hours a day on the State railway, with light work on alternate Sundays, and getting 14 florins 25 cents wages per fortnight; on the Holland railway ten hours a day without Sunday work, with a daily wage of 1 florin 30 cents, or else watching the lines, turn about with their husbands the "wegwachters" or cantonières. On the State railway their work averages twelve hours (the men taking the night duty) and they are paid at the rate of 25 cents a day, being lodged beside the husband, earning 80 cents a day. On the Holland railway the average hours of work are about the same, the women receiving pay at the rate of 25 cents a day, 1 florin 65 cents a week being, however, deducted for the lodging allowed them.

For women with families the work is considered trying, especially when they are kept on duty as long as sixteen hours, as is the case at certain points, where the traffic happens to be very heavy. As regards the general conditions under which the persons in the employ of the great Dutch railway companies carry out their work, the testimony of the numerous witnesses examined by the commission, with a few exceptions, was to show that they are well satisfied both as to the wages they receive and as to the treatment awarded them. A witness was of the opinion that the wages of railway servants compared favorably with those of most factory hands.

## DANGER SIGNALS.

Those in Use on Railroads and Their Common Meaning.

"What is the danger signal?" asked Hal, who was beginning to consider these railroad signals as almost important and well worth knowing as those in which he drilled his football team.

"Red for danger, green for caution and white for safety; flags by day and lanterns by night," replied the railroad uncle, adding: "I am sure you must have noticed men at the road crossings waving white flags to show that the track was clear, as your train rushed by."

"Of course I have," answered Hal.

"Or the caution on sharp curves and bridges, waving green flags as much as to say: 'You may go ahead, but you must do so with caution.'"

"I don't remember seeing them," responded Hal; "but I'll look out for the green flags the very next time I go in the cars."

"A red flag or a red light is imperative," continued Mr. Holden, and means "stop the cars for brakes and stop at once." There are other danger and cautionary signals I think you will be especially interested in, added his uncle, "torpedoes and fuses, for instance. A torpedo under the rail is one of the most used and most reliable in all the danger signals."

"But I shouldn't think it would be loud enough," objected Hal. "Why don't you use something louder,—say, cannon-crackers?"

"Oh, you are thinking of the little paper-wrappers torpedoes such as children play with, but they are not the kind I mean. A railroad torpedo is a round tin box, just about the size of a tin of dynamite, filled with percussion powder. Attached to it are two little leaden strips that can be bent under the edges of the rail, so as to hold the torpedo firmly in position on top of it. In this position, when a locomotive wheel strikes it with the force of a sledge-hammer, it explodes with a report fully as loud as a cannon-cracker. That can be plainly heard above all other sounds of the train. It is a warning sufficient to caution the engineman, and to render him keenly alert."

"If a train meets with any accident or obstruction that bids fair to cause a delay of more than a few seconds the engineman sounds five short whistle blasts (— — — — —). On hearing this signal the rear brakeman must immediately run back a short distance or so and place a torpedo on one of the rails that his train has just passed over. Then going back 200 yards further he places two more torpedoes, a rail's length apart. He then returns to the first torpedo, and with his red flag in hand stands there until the train has passed. When the train comes down the track he picks up and takes with him the single torpedo, but leaves the other two where they are."

"These two torpedoes thus form a cautionary signal; and, translated by the next following engineman, mean, 'the train ahead of you has met with a delay. Move cautiously and keep a sharp lookout.' The single torpedo is an imperative warning to apply the brakes. 'Shut off!' or, in other words, 'Stop at once; for there is danger immediately ahead.'"

"If a train is delayed at night, the rear brakeman is required to place a bit of fireworks behind him."

"It is a fuse," which is a package containing enough red fire, extinguishable by wind or rain, to burn exactly five minutes, which is the shortest length of time allowed between two running trains. The engineman of a following train must stop when he comes to a fuse, and not move ahead until it has burned out, though he can calculate from its condition just about how far ahead the next train is."—Kirk Munroe in St. Nicholas.

## BLAKE A TRIANGLE.

Views of and About Him as a Family Man, a Politician and a Stump Speaker.

"Yes, Edward Blake is having a great time," says one who enjoys the unusual advantage of intimacy with the great Canadian. "I have no doubt the size of the party in which he is fighting, and the hundred and one things which are new to him in London have a certain attractiveness. He is the recipient of many social attentions, and has quite recently been the guest of Mr. and Mrs. Gladstone at dinner parties, to which only the closest friends are invited. But he is one of the men who, whether he considers it or not, is the most domestic of men. His ambition is gratified in public life, but his heart is in his home, and it is a question with him whether he considers the distinction which he gains in London a fair recompense for all the home joys that he forsook when he quitted Canada."

"There goes Edward Blake," said an old time Ottawa newspaperman who was up from the Capital one day last week. "He is a great man; but it was an ill day for the Grits when he became their leader. He is a regular iceberg. He would never give a thank you for all you could do for him. You might break yourself in two trying to serve him, and he'd pass you, just as he has passed me now. He has no use for newspapers. Oh no! I do not know anybody who despises newspapers and newspapermen more than he does. Yet I have sat by the press gallery and watched him wait as eagerly for the Globe as the humblest back benchner who looked for a favourable notice of his first speech in the organ. I have seen the eye in his magnificent head linger lovingly over the paragraphs in which the Globe has given him a good word. Yes, sir, I have seen Edward Blake read over a puff of himself in the Globe four and five times. That persuaded me that even in great men there are some pretty human streaks."

"No sir," said a Toronto Liberal who was reasonably close to Wilfrid Laurier. "Edward Blake will never again be leader of a Canadian party. To tell the truth, and in truth is what I am giving you, if the Liberal parliamentary delegation were polled I do not suppose he could get six votes as against Laurier. He is like the attachment of the Old Guard to St. John. Remember Mr. Blake is not an applicant for the throne of Opposition leader, nor is the Opposition an applicant for his service in that capacity, but I do expect that if the date of the Irish Home Rule question permits, Edward Blake will give the Liberal party the benefit of his invaluable services on a stump if he is in Canada in the next general election season. I confidently look for his help, and I believe he would be no end of good to the party on the stump."—Telegram.

FRIDAY, MARCH 31, 1893.

### LOCAL ITEMS.

This is Good Friday.

Snodgrass are already in full bloom at many of the street corners.

Mr. Stoddard is trying the experiment of issuing his paper, the Prescott Journal, twice a week.

The wise schoolman will not wait until Arbor day to plant a birch where it will do most good.

The Rathbun Company have been awarded the contract of supplying Belleville with planning for sidewalk purposes.

Judge Laxer, Judge Frazer, W. R. Ayerworth, E. Reid and G. E. Henderson will audit the accounts of the administration of justice for this county on April 14th.

The lumber in the Rathbun Company's yard at the foot of Queen street, Kingston, is being removed to the other yard in the city, preparatory to vacating the premises.

Mr. Balfour, leader of the opposition in the imperial commons, moved a vote of censure on the Irish executive for condoning serious offences and thus bringing the law into contempt. This motion caused a lively debate, but the government was eventually sustained by a majority of 47 votes.

Andrew Hill met with a serious accident at the business Mills Cement Works. A large amount of coal caved in completely burying him. But for Miles Kenney, a lad eleven years old, who uncovered his face by scraping the coal away with his hands and thus giving him air, he would have lost his life. Mr. Hill still suffers severely from his injuries.

The single tax theory is rapidly gaining headway in all civilized countries and its general adoption is conceded to be merely a matter of time. It proposes to abolish all taxes except the land tax, and to use the revenue needed for government and all municipal purposes by means of a single tax on the value of land as distinguished from the value of improvements put upon the land by human industry. A resolution favoring this system has been carried in the parliament of New South Wales by a majority of three to one.

A resolution approving the payment of members of parliament has been passed in the imperial house of commons. The government has also brought in a bill for the formation of parish councils. This is practically the adoption of the Ontario system of municipal councils. These measures taken together with the preliminary bills looking towards church disestablishment show that the people are beginning to feel privileges are drawing to a close.

Several farmers in different parts of the United States are reporting splendid success in growing a combination of two bushels of oats and one of peas for hay, out just as the peas have passed the boiling stage and the oats are in the milk. In planting the peas under four inches deep, and then plowed over first broadcast and then sowed under four inches deep, and the oats sowed and harrowed in on the top. These farmers who had faithfully tried it had been rewarded by a great saving in cash paid out for bran and cotton seed meal, and had their cows do well.

### ST. MARK'S CHURCH NOTES.

In the notices last Sunday attention was directed to Easter day and to the Rubric which reads: "And note that every parishioner shall communicate at the least three times in the year of which Easter to be one."

A hearty and appreciative vote of thanks was accorded last Sunday afternoon to the esteemed instructor of the Men's Bible Class held under the auspices of the local chapter of the brotherhood of St. Andrew. These interesting and profitable weekly meetings to which all members of the congregation are invited (U. V.) be resumed on Sunday, next, at 3:30 p. m. in St. Mark's Hall.

Monday and Tuesday last witnessed largely attended funerals at this church. The former case was that of the late Frederick Saxsmith, Napane road, aged 21 years, who was released from a lengthened illness, patiently borne, on the 24th inst. The latter funeral, largely attended by the order of Royal Templars and others, was that of Nellie, younger daughter of George D. Smith, who though in feeble health for some time past was on Saturday last, after a few hours illness only, called to her rest. Much sympathy is felt for the respective bereaved families.

The Church's appointed services of holy week commemorating the sufferings and death of our Redeemer are being held daily at 10 a. m. and 7:30 p. m. The offerings on Good Friday are annually given to the Bishop of Jerusalem's, Bishop Blyth, mission work among the Jews in Jerusalem and the East.

The following services next Sunday will characterize the commemoration of joyful Easter day. Holy communion at 8:15 a. m. as also at mid-day, thus affording an opportunity to all to obey the risen Lord's command, "Matins at 11 o'clock, when the canticles, etc., will be sung to the bridgewater setting, and appropriate anthems, evening at 7 as usual with festival music and the special Psalms.

The annual children's festival is to be in the church at 3 p. m. It is a most interesting and all are invited to attend. The order of the service and words of the musical selections to be sung by the vocal choir will be distributed to adults attending this service.

All offerings next Sunday both special and ordinary are asked for the general church fund.

#### SARA LORD BAILEY.

This talented professional reader appeared again before a Deseronto audience, in the Methodist church, on Wednesday evening last, and, as might have been expected from her very satisfactory work here a year ago, she was heartily greeted by a large and intelligent audience. They expected another treat, in which they were anything but disappointed. After a selection by Prof. Denmark's Mandolin Club, Rev. Mr. Rice, who occupied the chair, in a few fitting words, introduced the great dramatic reader, who, on her way to the platform, received very hearty hand clapping. Owing to her having contracted a cold, and her printed programme being exceptionally heavy, "A Hero's Life" was not given but "The Boston Vendor's Call" was substituted. Then followed in the course of a two hours' programme, "Mammie's Little Boy," "Judgment Day," "Life for Life," "Royal Bumper Degree," "Creed of the Bible" and "Engineer's Signals"—comprising repertoire of great variety and affording evidence of great dramatic power, in exercises very trying and alike effective both in grave and gay—a combination very rarely reached in any one individual. It is not too much to say, that Sara Lord Bailey maintained her right to be numbered among the very best of professional dramatic readers. There was also a choice musical feature in the entertainment. Prof. Denmark's Mandolin Club appeared for the first time in public, and the peculiarly sweet music rendered by this club, only as yet in its infancy, was thoroughly enjoyed and highly commended by many at the close. In the future this orchestra will be in great demand among the lovers of good music. A beautiful vocal solo, "Abraham," by Mrs. H. A. Yeomans, with Mandolin Club accompaniment, was a real gem. Miss Deane gave, with fine effect, "Winter Lullaby," a very sweet vocal selection, while Mr. George Harter of Kingston, gave a well rendered violin solo, "Cavalcade," Mrs. Yeomans furnishing suggestive accompaniment. Little Fannie H. gave in superior style, "Jennie MacNeill," and received from Mrs. Bailey hearty congratulations on her effective rendition, and pronouncing the effort as remarkably promising of future excellent development. The entertainment was indeed, a rare treat and in every way satisfactory.

Mr. Wilson, of London, strongly objects to the spending of money by government to the settlers from the United States to the Northwest.

### INCOMING SETTLERS.

The Dominion government have passed an important order in council affecting the settlers in the Northwest. The following are some of the most important points:

The sub-committee of council desire to direct attention to the fact that during the past year no less than 513 entries for homesteads in Manitoba and the Northwest Territories were made by persons coming from the United States of America. The subcommittees state this number would be greatly increased only for the recent order putting an end to the admission into Canada of settlers' cattle from that country upon a veterinary examination and report and enforcing the 30 days quarantine at all points along the international boundary from the Atlantic to the Pacific. The committee considered this class of settlers as particularly valuable as they bring a fine equipment and are accustomed to the climate, methods of farming, etc., and in order to mitigate to a very considerable extent the difficulties on the way of immigrants of the class referred to, recommend the immediate reservation of two additional quarantine stations in the neighborhood of Estevan and Wood Mountain, and also at Huntington, B.C., for settlers coming from Washington, Oregon, and Idaho. The committee also recommend settlers from Michigan to dispose of their meat cattle in the United States. To those who cannot drive their cattle to Estevan a temporary quarantine station may be established at Greta. The committee propose that the care, feeding and watering of the animals shall be paid for by the Canadian government. It will also be necessary to make provision for the branding and registration of the animals on arrival, so that upon the expiry of the 30 days, there may be no difficulty in allowing them to their owners. It is recommended that the mounted police should undertake this duty so as to save cost. The C.P.R. had promised all assistance to the scheme which has been adopted by the Dominion government.

On the 19th inst. Miss Maria Stevenson died at the residence of Miss N. Baker, near Selby, at the advanced age of 51 years. Deceased slipped on the floor last New Year's day and injured her thigh, and was afterwards confined to her bed until the day of her death. Residing in the same house with Miss Baker is Mrs. Parks, who will be 80 years of age next September.

C. C. RICHARDSON & Co.  
Gentlemen,—In driving over the mountains I took a severe cold which settled in my back and kidneys, causing me many sleepless nights of pain. The first application of MINARD'S LINIMENT so relieved me that I fell into a deep sleep and complete recovery shortly followed.
